Table of Contents

Introduction	1
New Features and Enhancements	2
Supported Database Platforms	3
Bug Fixes	4

Introduction

Active Content Manager 24.1 contains enhancements.

Active Content Manager:

- Active Passport
- File Service

In addition to working on enhancements, the ACM team has been working on a significant infrastructure upgrade through a Google Cloud migration.

Please check the Active Customer Portal at <http://CustomerPortal.ActiveNetwork.com> for other updates and documentation.

New Features and Enhancements

- [7540] **Active Passport:** The **Application Form** page type now supports Passport's updated strong password rules. Also, the **Change Password** button on the application form has been suppressed for existing accounts. (Users must change their passwords through Passport's **Forgot Password** feature.)
- [7550] **File Service:** The issue has been resolved where documents couldn't be uploaded from File Service.

Supported Database Platforms

ACM 24.1 has been tested with SQL Server databases. See the *ACM 24.1 Hardware and Software Requirements* document for more information.

Bug Fixes

- [6892] The issue has been resolved for public users where an unexpected page appeared after the user sent an email to selected club members through "Email selected members."
- [7517] The issue has been resolved where the email sender name on emails that Diagnostic Manager sent out was incorrect.
