Introduction

Active Content Manager 24.2 contains an enhancements and bug fixes.

Active Content Manager:

- Credit card processing: 3D Secure
- New page type

In addition to working on enhancements, the ACM team has been working on a significant infrastructure upgrade through a Google Cloud migration.

Please check the RTP Customer Portal at <https://support.activenetwork.com/rtp/> for other updates and documentation.

New Features and Enhancements

- [7584] **Credit card processing:** 3D Secure (3DS) is a security protocol that verifies a user's identity and protects against fraud for online transactions. 3DS has been added to the checkout flow of ONE|Store for customers processing payments using Global Payments Canada.
- [5466] A new page type has been created, **RTPAccountAccessHistory**, under the **My Account** section of ONE|Store. The head of household can now view the access history of family members for the current and last season.
