Release Summary

The purpose of this Release Notes document is to provide a brief, educational summary of the items updated or added in this product release.

Besides providing this document, we will also update existing documentation in the Help Center to show updated workflows. If you have additional questions about this release, please contact the Support team.

Release 7.9.1 is comprised of product updates on USA Hockey Integration. Organization users can now configure seasons to require submission and validation of USA Hockey confirmation number in the registration form and internal registration before allowing a registration to proceed. This will let Hockey organizations to easily determine and only allow participants with valid USA Hockey numbers to register for an event.

Enhanced Product Features

USA Hockey Integration

Organization users can now configure specific seasons to require submission and validation of a USA Hockey (USAH) confirmation number in the Online Registration Form and Internal Registration before allowing a registration to proceed.

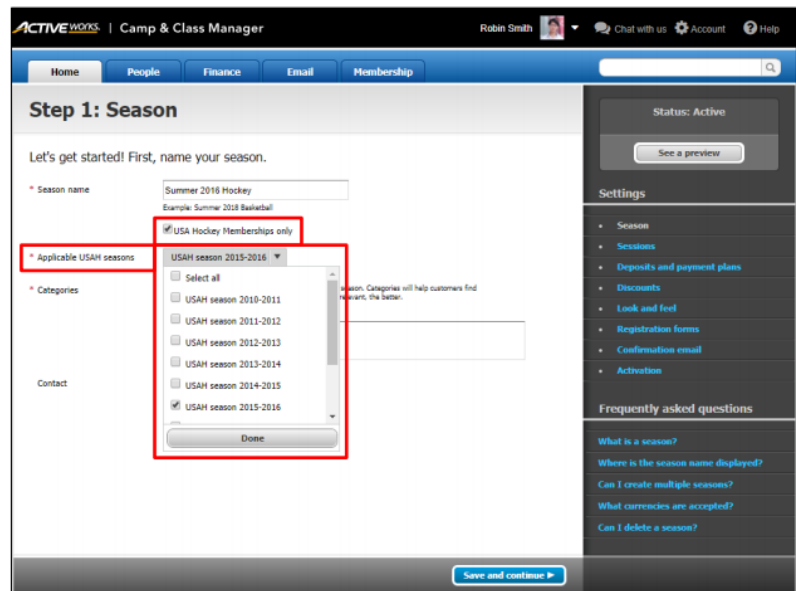

The USAH confirmation number is used to query USA Hockey to validate the following information:

- Participant last name
- Participant first name
- Participant email address
- Season associated with the USAH confirmation number and whether the participant is eligible to register for the selected season

If any of the above validations fail, registration cannot proceed. Validated USAH confirmation numbers are saved with the participant's information in the database.

Set up USA Hockey Integration

1. From **Home** page, click **Setup** under desired season
2. Select **Season** from settings list on right hand side
3. Check **USA Hockey Memberships only** checkbox
4. Select applicable USAH seasons
5. **Save and Continue**

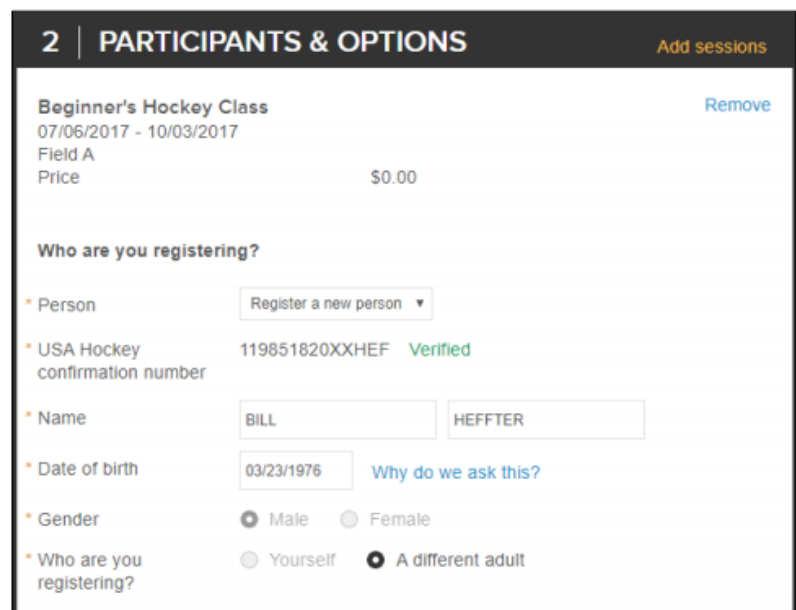

Customer Experience

Customers will be asked to enter their USAH confirmation number in **2. Participants & Options** section on the registration form. If a valid number was entered, green **Verified** message will appear next to the USAH confirmation number.

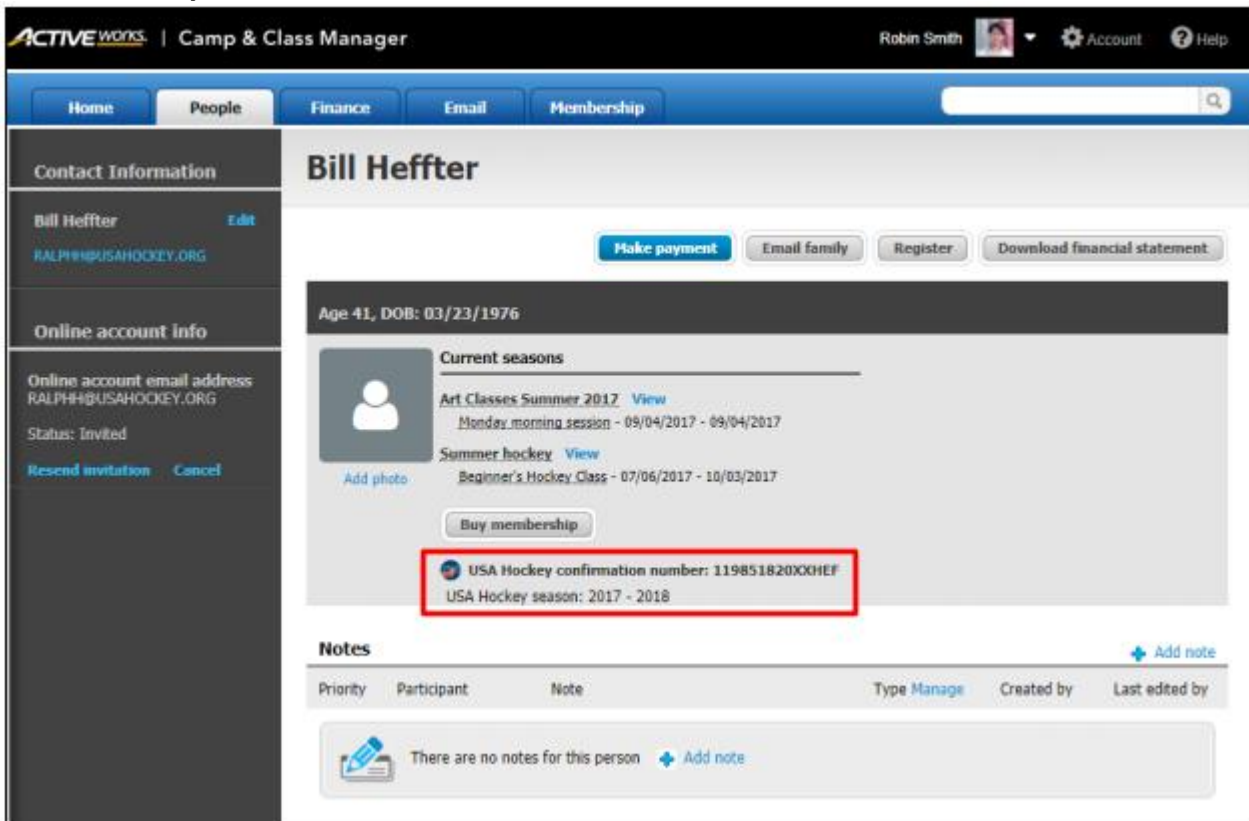

Following error messages will appear if:

- Invalid USAH confirmation number was entered:
Invalid USA Hockey confirmation number
- USAH confirmation number is not valid for the season:
The USA Hockey confirmation number is not qualified to register for this season.

Organization User Experience

In the People tab, organization users can now see each participant's most recent USA Hockey confirmation number and USA Hockey season.

The screenshot displays the ACTIVEworks Camp & Class Manager interface. The user is logged in as Robin Smith. The main navigation tabs are Home, People, Finance, Email, and Membership. The profile for Bill Heffter is shown, including contact information (RALPHH@USAHOCKEY.ORG), online account info (RALPHH@USAHOCKEY.ORG, Status: Invited), and current seasons (Art Classes Summer 2017, Summer hockey). A red box highlights the USA Hockey confirmation number: 119851820XXHEF and the USA Hockey season: 2017 - 2018.
