NCSA Integration	7
Pass athlete phone number and zip to the NCSA API.....	7

OneTrust

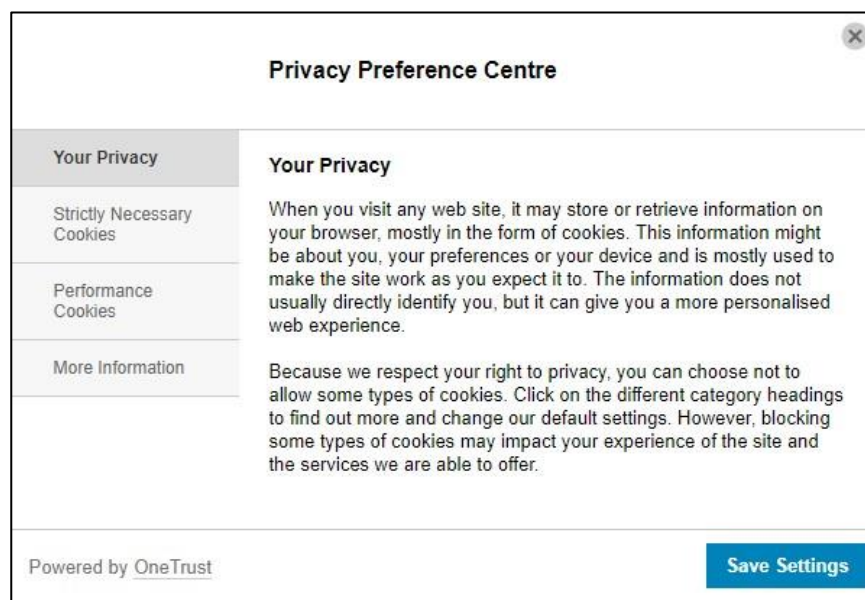

OneTrust Cookie Manager Integration

For GDPR compliance, the OneTrust cookie manager has been integrated in CCM to replace TrustArc. After logging into the product or online accounts, or when loading the registration forms site, a cookie banner will be displayed until users click the **Accept Cookies** link to consent to the cookie policy.

Users can manage their cookie settings in the **Privacy Preference Centre**, accessible by clicking the **Cookie Settings** link on the banner or in the site footer.

To access the **Privacy Preference Centre**, click the **Cookie Settings** link on the banner or in the foot:

CCM New File Service

Migrate CCM to the new file service

To extend the retention period for CCM's files and photos, the existing file service (SOAP) has been migrated to a new file service (REST). After the migration, new files and photos will have **five years** of shelf life. Existing files and photos will have **one more year** of shelf life. Affected features include:

- Supplemental forms
- Email attachments
- Participant photos

NCSA Integration

Pass athlete phone number and zip to the NCSA API

During CUI registrations, athletes' phone numbers, zip codes and parent/guardian home phone numbers are required if they opt-in for the Next College Student Athlete program (NCSA).

Now, if an athlete's phone number and zip code information is not provided during registration, then CCM will pass the following dummy values to the NCSA API:

Athlete phone dummy number: 555-555-5555

Zip code dummy value: 55555

If the parent/guardian home phone number is not entered, then the athlete's phone number value will be passed to the API instead (either the entered athlete's phone number or the above dummy number).
