

Release Notes 7.1  
February 7, 2017

## Table of Contents

Release Summary.....	2
Enhanced Product Features.....	3
Conditional Session Option.....	3

## Release Summary

The purpose of this Release Notes document is to provide a brief, educational summary of the items updated or added in this product release.

Besides providing this document, we will also update existing documentation in the Help Center to show updated workflows. If you have additional questions about this release, please contact the Support team.

Release 7.1 is comprised of product updates on the Session Option Type feature. It is now possible to set up a session option that would apply automatically based on the answers provided on the registration form. For instance, if a customer answers “Yes” to the “Do you require daycare?” question, a Daycare session option would automatically apply on the cart.

# Enhanced Product Features

## Conditional Session Option

Organization users can now configure a session option type with a rule that automatically applies the session option on the CUI checkout page if customers select the appropriate answers to a custom question during registration.

## Set Up Conditional Session Option

To Create a Session Option that would Automatically Apply to Cart:

1. Go to **Setup**
2. Select **2. Sessions**
3. Click on name of session
4. Under **Session options**, create a session option
5. Click **Edit Details**
6. Click **Manage** next to **Session option type** dropdown
7. Enter the following information:
  - Session option type
  - Display type: Add on checkout page
  - Display condition: Always display
  - Question condition: Select custom question
  - Answer includes: Select answer(s)

Set a display type and display condition for all session options of this type.

\* Session option type: Cart

Display type: Add on checkout page

Display condition: Always display

Question condition: Do you require daycare?

Answer includes: Yes (selected), No

Done

**Note:** for the session option to be added to the checkout page, both the Display condition and Question condition must be simultaneously fulfilled.

## Customer Experience

While registering, customers who have selected the appropriate answers to a custom question during registration are automatically given the corresponding conditional display on the checkout page.
