Camp and Class Manager Release Notes

Enhancements

Improved Home tab loading performance

The **Home** tab now loads in less time than before:

CollegeAdvisor integration: missing phone number or zip code

When registering for CollegeAdvisor, if a participant does not have a phone number or primary parent's phone number in his/her record (possibly due to the agency having removed these questions from the registration form), then a dummy phone number of 555-555-5555 is now submitted to CollegeAdvisor. If a participant does not have a zip code in their record, then a dummy zip code of 55555 is now submitted to CollegeAdvisor.

CollegeAdvisor integration: missing phone number or zip code

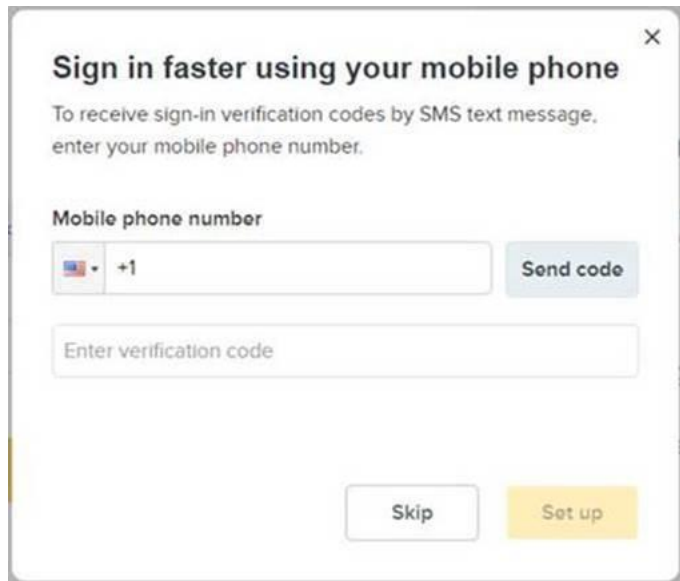

Platform Passport Service is being enhanced to streamline the MFA (Multi-Factor Authentication) process for ACTIVEworks admin users. With this enhancement, users will be given the option to finish MFA using SMS text messages. After users verify their identity by email, a new popup will allow users to provide their phone number so that they can verify using SMS with subsequent logins.

After a phone number is verified successfully, SMS based MFA will be enabled by default next time when user needs to perform MFA. The user can switch to use email to process MFA by clicking the 'Verify by email' link.

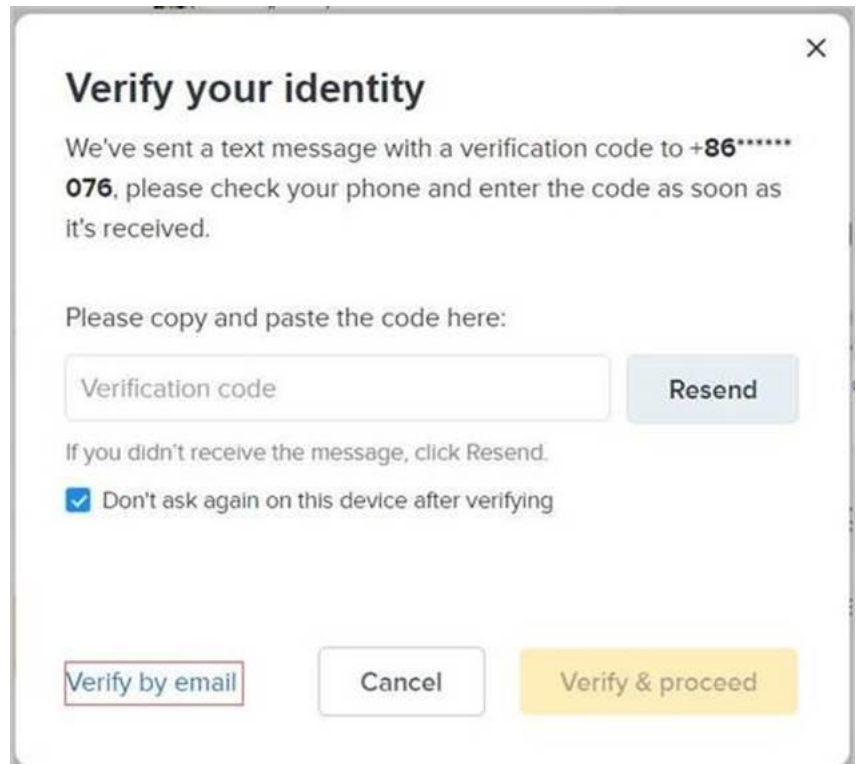

Camp and Class Manager Release Notes

Phone numbers from below list of countries will be supported after the release:

- United States
- United Kingdom
- Australia
- Canada
- Ireland
- France
- New Zealand
- Singapore
- Hong Kong

- Netherlands
- Austria
- Sweden
- Bahamas
- Croatia
- Switzerland
- Taiwan
- Norway
- Brazil
- India
- Argentina

The screenshot shows a dialog box titled "Sign in faster using your mobile phone" with a close button (X) in the top right corner. Below the title, it says "To receive sign-in verification codes by SMS text message, enter your mobile phone number." There is a text input field for the "Mobile phone number" with a dropdown menu showing a flag and "+1". To the right of the input field is a "Send code" button. Below the input field is another text input field labeled "Enter verification code". At the bottom of the dialog, there are two buttons: "Skip" and "Set up".

The screenshot shows a dialog box titled "Verify your identity" with a close button (X) in the top right corner. Below the title, it says "We've sent a text message with a verification code to +86*****076, please check your phone and enter the code as soon as it's received." There is a text input field for the "Verification code" and a "Resend" button to its right. Below the input field, it says "If you didn't receive the message, click Resend." There is a checked checkbox labeled "Don't ask again on this device after verifying". At the bottom of the dialog, there are three buttons: "Verify by email", "Cancel", and "Verify & proceed".

Phone numbers from below list countries will be supported at a later stage:

- China
- Philippines
- Thailand
- United Arab Emirates
- Viet Nam
- US Minor Outlying Islands
- Bermuda
