## New features

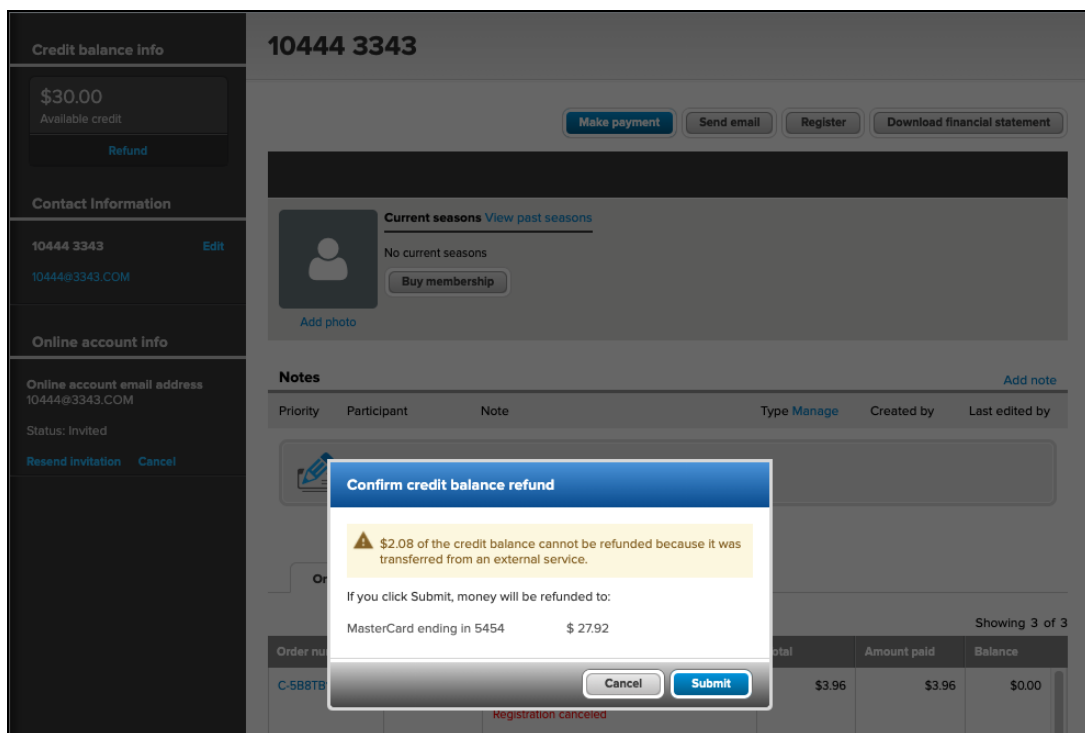

### Credit balance refund

Credit balances can now be refunded without delay. Refunds can fail or be only partially issued if:

- a credit balance was entirely imported from an external service using the credit balance tool:

- a credit balance was partially imported from an external service using the credit balance tool:

## Email waitlist registrants

Previously, the **Waitlist registrations > Email selected people** function:

- failed to display merge fields in emails sent to waitlist registrants
- intermittently failed to send emails to waitlist registrants

This issue has been resolved in this release.

**Summer 2021 MS Office**  
06/01/2021 - 09/30/2021 10:00 AM - 12:00 AM

## Time zone-specific reminder email deliveries

Agency users can now send out reminder emails at midnight in a selected time zone by selecting the **Email** > creating or editing a reminder email > **Delivery schedule** > time zone dropdown (defaults to the agency's time zone for new reminder emails or the UTC time zone for existing reminder emails).

The screenshot shows the 'Create reminder email' interface. At the top, there's a breadcrumb 'Home > Email > Create reminder email' and a progress bar with three steps: 'Reminder information' (active), 'Design', and 'Preview'. Below the progress bar, a message reads: 'Create a reminder email to send to registrants at midnight on a specified delivery schedule.'

The form fields are as follows:

- Subject:** A text input field with a red asterisk and an 'Insert merge fields' dropdown.
- From:** 'Public Contact (public@public.com)' with an edit icon.
- Delivery schedule:** A section with a red asterisk. It contains the text 'Send to all recipients at midnight of the selected timezone' followed by a dropdown menu showing 'US/Pacific' (highlighted with a red box). Below this is a sequence of dropdowns: '0' (days), 'before', 'the', 'start', and 'of their registered sessions'.
- Select seasons:** A dropdown menu with the text 'Select seasons'.
- Select sessions:** Two radio buttons: 'All sessions' (selected) and 'Selected sessions'.
