Camp and Class Manager Release Notes

New features

Disable Thriva legacy report function

The Thriva legacy report function was created to allow Thriva-migrated customers to access their legacy data. Since the end-of-life of Thriva in 2020, the **Thriva legacy report** function will no longer be supported by ACTIVE from January 31, 2022:

- The **Thriva legacy report** option has been removed from the AUI header > ⚙️ **Settings** menu.
- For ACTIVE administrators, the AUI header > ⚙️ **Settings** > **Advanced settings** > **Thriva legacy report** setting has been removed.

New session information API

API clients can now retrieve session information filtered by a range of last modified dates by using this new API:

`https://awapi.active.com/rest/camps-session-info-v3`

For more information, please refer to the **Integrating with Camp and Class Manager 3.13** API user guide.

Camp and Class Manager Release Notes

New tuition information API

API clients can now retrieve tuition information filtered by a range of last modified dates by using this new API:

`https://awapi.active.com/rest/camps-tuition-info-v3`

For more information, please refer to the **Integrating with Camp and Class Manager 3.13** API user guide.
