New features

Group capacity report

The **Group assignments** feature (under a season) enables agencies to organize session participants into groups to participate in activities. A group assignment consists of a set of sessions (or just a single session) within a season, and a set of groups created and named by an agency. In addition, agencies can designate a group assignment as being of a certain type.

Time period	Assignment	Location	Unassigned	Assigned	Export	Delete
06/01/2021 - 09/30/2023	Class	Community Center	2	2	Export	Delete
	Red	Community Center	0	1	Export	Delete
	Blue	Community Center	1	3	Export	Delete
	Skill	Community Center	2	2	Export	Delete

In this release, agency users can view a season's session capacity information with group assignments and group capacity information in a single report in the season > **Reports** > **Group capacity report**:

Report name	Description
Cart abandonment e-mail report	Shows records of all incomplete registrations in the last 90 days.
Daily Attendance Report	Shows the daily attendance records for all your registrants.
Group capacity report	Shows the current registration capacity for all group assignments in your season.
Merchandise purchase report	Shows the current merchandise purchases for all sessions in your season.

Early-bird pricing tiers enhancements

Previously, agency users could only configure up to 4 tiers for a tuition's early-bird pricing (in a season > **Setup** > step 2 **Sessions** > a session > **Base tuition**). In this release, agency users can now configure up to 30 tiers.
