New features

ACTIVE Captivate Portal: customizing ACTIVE Captivate mobile app branding

To improve consumer engagement, agency users can now customize and brand their ACTIVE Captivate app on the ACTIVE Captivate Portal > **General** > **Branding** page:

Customizing App information

In this section, agency users can customize the ACTIVE Captivate app's:

- App name that appears in the app store and on consumer's mobile devices.
- App **Description** that appears in the app store.

Customizing look and feel

In this section, agency users can customize the ACTIVE Captivate app's:

- **App icon** that appears in the app store and on consumer's mobile devices. After uploading an icon image, agency users can:
 - Adjust the centering of the image by clicking-and-dragging the image.
 - Zoom in or out of the image by clicking-and-dragging the slider.

	Edit app icon	Cancel OK

App information 🧨 Lo	ok and	0
App name Demo org app: Description Download this app for a customized experience!	kon d	an image

- **Splash screen** which appears when first opening the app. After uploading a splash image, agency users can:
 - Adjust the centering of the image by clicking-and-dragging the image.
 - Superimpose the app icon over the center of the splash image by selecting the **Include app icon** checkbox.
 - Zoom in or out of the image by clicking-and-dragging the slider.

	Edit splash screen	Cancel

ACTIVE Captivate iOS and Android mobile apps: configuring the display language

In the ACTIVE Captivate app, consumers can now change the app's display language by tapping their avatar picture > Language setting > their preferred display language and then clicking Save.

No SIM 奈	3:34 PM	● 100%	No SIM 🗢	3:36 PM	@ 100% 🗩
÷			~	Language setting	Save
			English		
	David		Français		
			Español		\checkmark
🔅 Language	e setting	English >			
	App version 2.5.0				
	Sign out				

After changing the display language, all pages in the app are displayed in the selected language:

No SIM 🗢	3:35 PM	@ 100% 🗩 ·

ACTIVE Captivate iOS and Android mobile apps: displaying online sessions and additional information

If agency users have configured online sessions in the Camps & Class Manager AUI > **Seasons** > selecting or creating a season > session setup step, then in the ACTIVE Captivate app, consumers can now view online sessions and their additional information.

Example:

In the Camps & Class Manager AUI, an agency user has configured an online session as follows:

Step 2: Ses	sions			St	atus: Active
Set up your sessio Provide the details for yo	N our session, including location a	and tuition options.		Settings	ee a preview
Basic settings				- Ceason	
Define the basics of yo	ur session, including dates, loc	ation and for what participant	s may register.	Sessions
