Complete a waitlisted registration: Purchase session options

The event **Setup > Waitlist automation** feature automatically emails an invitation to the first waitlisted registrant on the waitlist when a spot becomes available.

Camp and Class Manager Release Notes

In this release, when a waitlisted registrant is invited to complete a registration, the registrant can now purchase session options.

For example, an organization has configured the following session options for **sessionA** (in the event **Setup > Sessions > a session > Session options**):

The screenshot displays the 'Step 2: Sessions' configuration page. The top navigation bar includes 'Home', 'People', 'Finance', 'Email', 'Membership', and 'Add-ons'. A search bar is located on the right. Below the navigation, a banner reads 'Manage your private lessons with the all-new ACTIVE Reserve! Click here to learn more.' The main content area is titled 'Step 2: Sessions' and includes a 'Status: Active' indicator and a 'See a preview' button. The 'Basic settings' section contains fields for 'Session name' (sessionA), 'Dates' (12/20/2022 to 04/30/2023), and 'Session mode' (Offline session). The 'Session options' section is highlighted with a red box and contains a table of optional products and services:

Session option	Price	
Day care	\$ 3.00	Edit details Delete
Lunch	\$ 8.00	Edit details Delete
Bus	\$ 3.00	Edit details Delete

Below the table are links for 'Add a session option' and 'Reorder session options'. A right-hand sidebar contains a 'Settings' menu with items like 'Season', 'Sessions', 'Deposits and payment plans', 'Discounts', 'Look and feel', 'Registration forms', and 'Email'.

When a waitlisted registrant is invited to complete a registration, the registrant can now purchase the session options listed in the **Additional purchases** section:
