Order notes	3

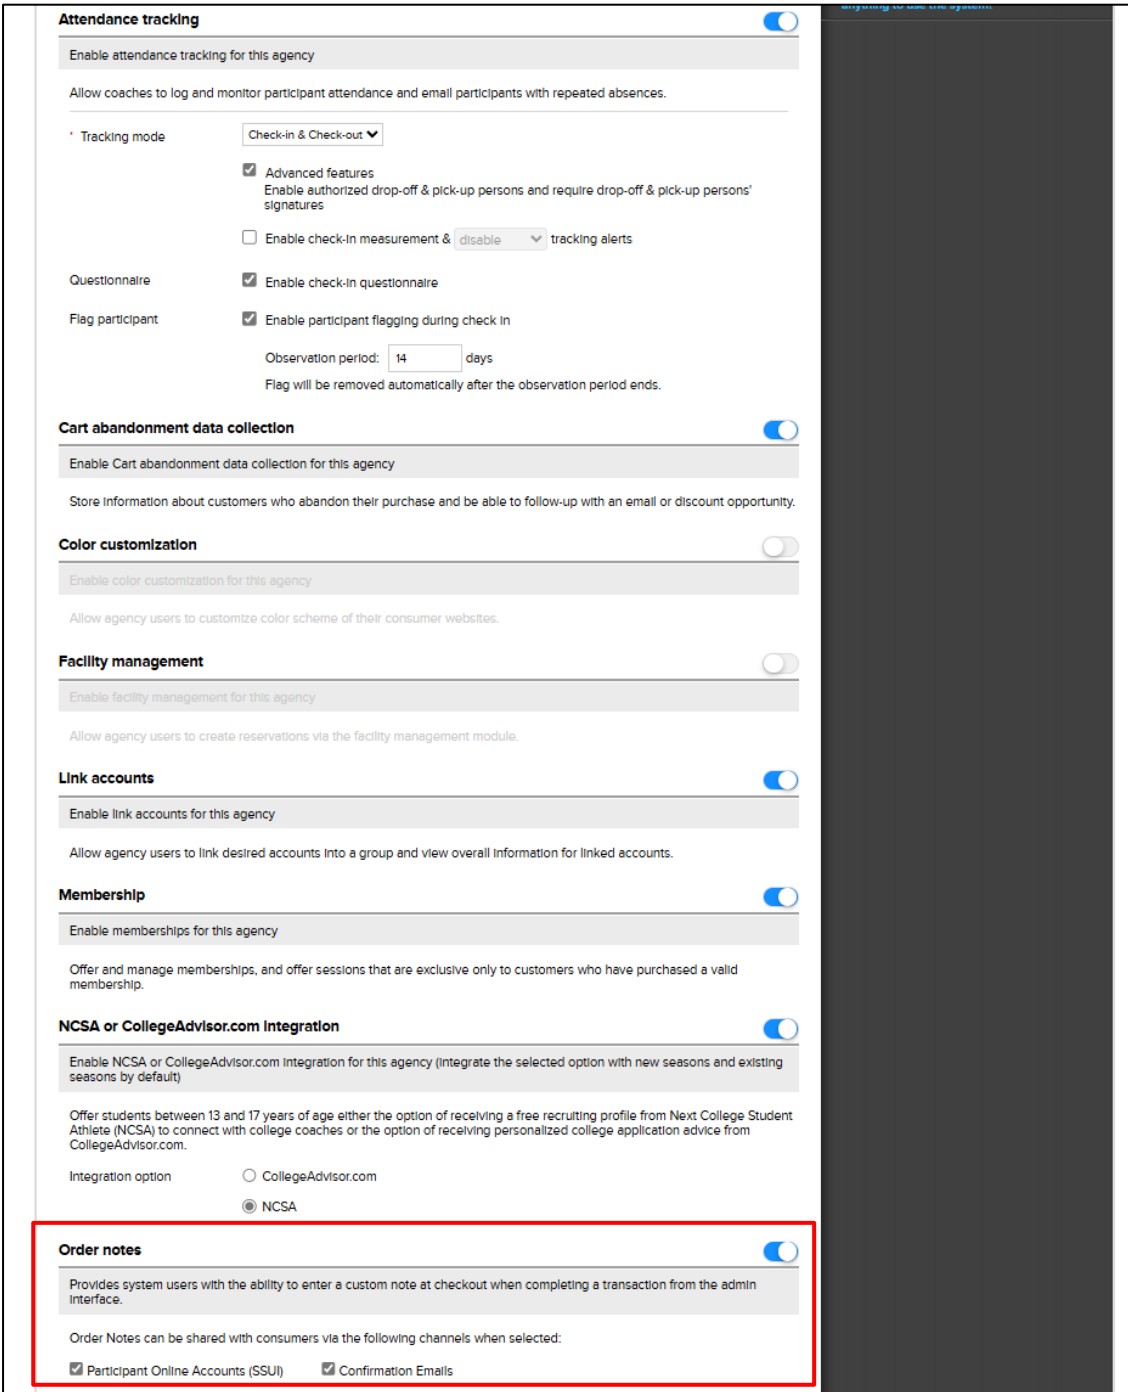

Camp and Class Manager Release Notes

New features

Order notes

Agency users can now add order notes when creating or editing an order in the AUI, making it easier to share important details with customers and other agency users.

- To enable this feature, admin users must toggle on AUI header >  Settings > **Advanced settings** > **Order notes**.
- If the **Confirmation Emails** checkbox is selected, the order notes are included in the confirmation email sent to customers after a front desk registration is completed.
- If the **Participant Online Accounts (SSUI)** checkbox is selected, customers can view the order notes in the SSUI.

The screenshot shows the 'Advanced settings' page in the Agency Admin Interface (AUI). The 'Order notes' section is highlighted with a red border. It includes a toggle switch for 'Enable order notes for this agency', which is turned on. Below the toggle, there is a description: 'Provides system users with the ability to enter a custom note at checkout when completing a transaction from the admin interface.' Underneath, it states 'Order Notes can be shared with consumers via the following channels when selected:' and lists two checked options: 'Participant Online Accounts (SSUI)' and 'Confirmation Emails'.

Attendance tracking 

Enable attendance tracking for this agency

Allow coaches to log and monitor participant attendance and email participants with repeated absences.

* Tracking mode

Advanced features
Enable authorized drop-off & pick-up persons and require drop-off & pick-up persons' signatures

Enable check-in measurement & tracking alerts

Questionnaire Enable check-in questionnaire

Flag participant Enable participant flagging during check in

Observation period: days
Flag will be removed automatically after the observation period ends.

Cart abandonment data collection 

Enable Cart abandonment data collection for this agency

Store information about customers who abandon their purchase and be able to follow-up with an email or discount opportunity.

Color customization 

Enable color customization for this agency

Allow agency users to customize color scheme of their consumer websites.
