ACTIVE Captivate for Camps and Class Manager (CCM) Release Notes

ACTIVE Captivate Portal: applying the “Show First Name + Initial of Last Name on Captivate” setting to the Chat module of the ACTIVE Captivate app

Previously, the “Show First Name + Initial of Last Name on Captivate” setting of the ACTIVE Captivate portal site did not apply to the Chat module of the ACTIVE Captivate iOS/Android apps. The Chat module always displayed full names.

Now, the “Show First Name + Initial of Last Name on Captivate” setting of the ACTIVE Captivate portal site also applies to the Chat module of the ACTIVE Captivate iOS/Android apps. If it is enabled, the Chat module only displays first names and initials of last names for all users.
