Camp and Class Manager Release Notes

New CUI enhancements

Displaying the calendar after switching to the Day view

In the calendar view, when switching to the **Day view**, the calendar now displays the week containing that day. Users can tap the expandable divider to reveal the full month.

Users can also scroll down the screen to view the sessions on that day.

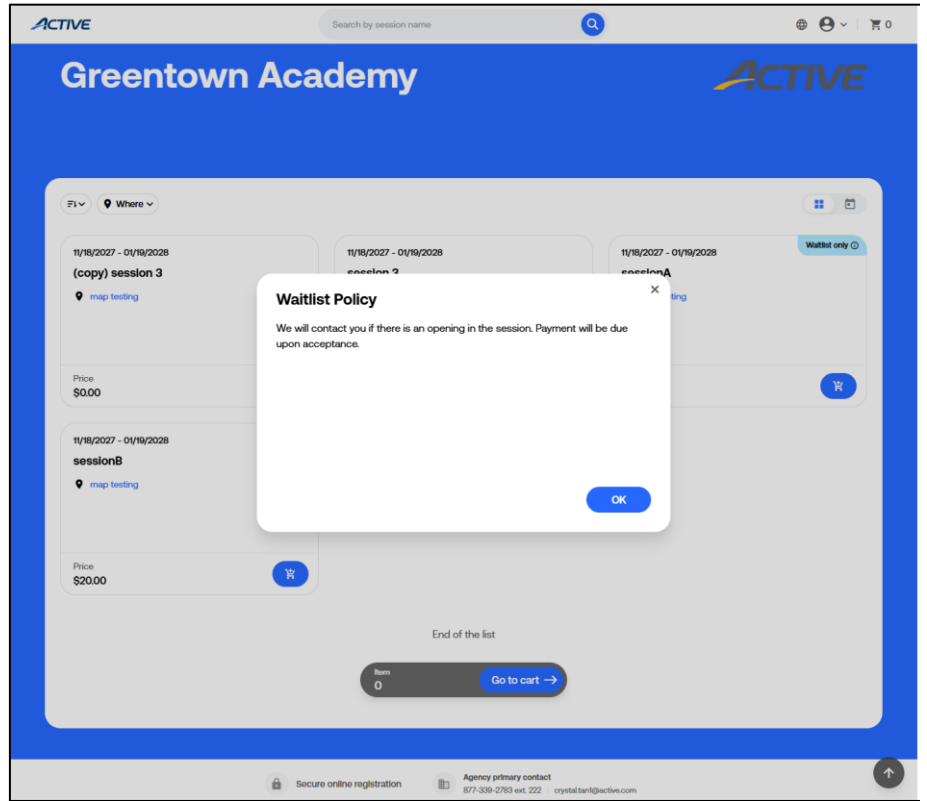

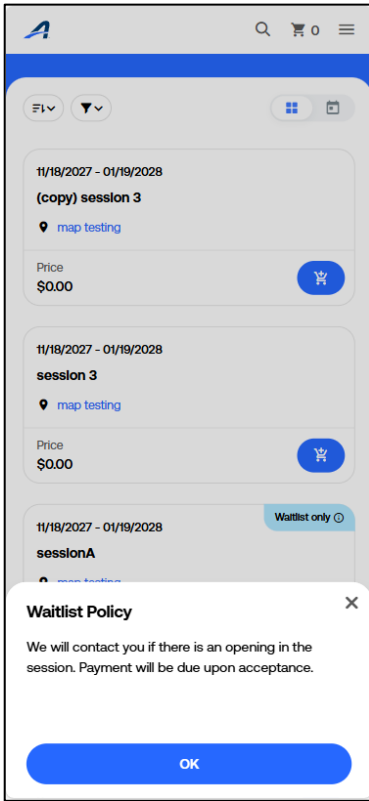

New waitlist policy window

On the session listing page, clicking a waitlist tag opens a **Waitlist policy** window that displays the configured policy. After reading it, users can click **OK** or **x** to close the window.

Displaying the item quantity in the mini cart

The floating mini cart on the Session listing page now displays the **Item** quantity. The number changes with the number of items added to the shopping cart.
