Camp and Class Manager Release Notes

Add-to-cart Confirmation Panel enhancements

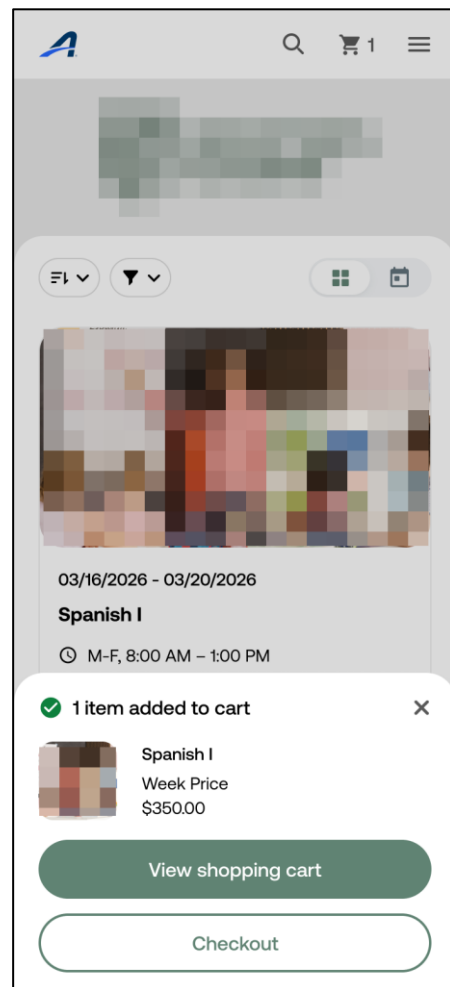

In the new CUI, the confirmation panel that appears when customers add items to the cart has been expanded, helping them quickly review their selections and proceed to checkout.

The panel now displays the total number of items added to the cart with quick-link options to select **View shopping cart** or **Checkout** to continue forward with registration.

Camp and Class Manager Release Notes

Supplemental Form Reminder Email Branding

When configured, automated reminder emails sent to participants for outstanding required supplemental forms will now display the organization's logo as the email header, providing a consistent branded experience.

The organization logo can be configured by navigating to the AUI > **Advanced Settings** > **Organization Branding** page. For organizations that have already configured a customized organization logo on this page previously, no additional changes are required.

For organizations that have not yet customized the organization logo settings, ACTIVE's logo will be displayed as the default branding until one is configured.
