Camp and Class Manager Release Notes

Disclosing Mandatory Fees with All-Inclusive Pricing

To support fee transparency requirements, Camp & Class Manager has updated how prices are displayed on the consumer registration page (CUI). When the fee transparency feature is enabled, the prices shown to consumers for Tuitions and add-ons will display the estimated sum of the base price plus the cost of consumer-paid mandatory fees.

Mandatory fees include:

- Registration or service fees passed to consumers
- Payment processing fees passed to consumers
- Session Options or Merchandise configured as required for all registrations
 - *Please note: Add-ons dynamically charged once per participant and/or once per family are excluded from upfront estimated prices. Only add-ons required for every registration will be included in the estimated upfront price.*

To help consumers understand what is included in the displayed price, a Price Breakdown and explanatory text is shown throughout the registration experience when an estimated total price is displayed.

Displaying All-In prices in the CUI

When fee transparency is enabled and mandatory fees are configured, consumers will see an All-In price throughout the registration experience. Rather than showing the base price then adding mandatory fees later in the process, Camp & Class Manager calculates the estimated total cost upfront and displays the estimated total amount as the Session/Tuition price in both the legacy and new registration flows. This provides consumers greater pricing transparency and a clearer understanding of their total cost before registering.

The All-In price for a Session or Tuition is made up of the following elements, when applicable:

- Original price — the base price of the Tuition, plus
- Required add-ons — the add-ons every consumer is required to purchase with the registration, plus
- Estimated Service fee — the Service fee or Registration fee that will be charged to the consumer at checkout, plus
- Estimated payment processing fee — calculated using the payment method with the lowest rate configured in the system.

The All-In price for Session Options, Merchandise, or Membership is made up of the following elements, when applicable:

- Original price — the base price of the item, plus
- Estimated Service fee — the Service fee or Registration fee that will be charged to the consumer at checkout, plus
- Estimated payment processing fee — calculated using the payment method with the lowest rate configured in the system.

These elements are combined into a single estimated total, which is displayed as the item's price in the CUI within the Session Option and Merchandise purchase flows.

Camp and Class Manager Release Notes

Dynamically-Required Add-On Fees

For Sessions with dynamically-required Session Options (Session Options required once per person or once per family) or Membership, the cost of these items will not be included in the upfront price displayed due to the applicability of the cost being unknown before sign-in and participant selection. In these cases, a disclaimer message will be shown on the Session tile on the Session Listing page clarifying that prices may change later in the flow.

This disclaimer states: “Underlined prices include estimated required fees. Final price may change based on your later selections”.

Showing a price breakdown for All-In prices

To help consumers better understand the total cost of registration, All-In prices will be displayed as underlined links. Consumers can click the underlined price to open a Price Breakdown popup that details the elements included in the total price, when applicable:

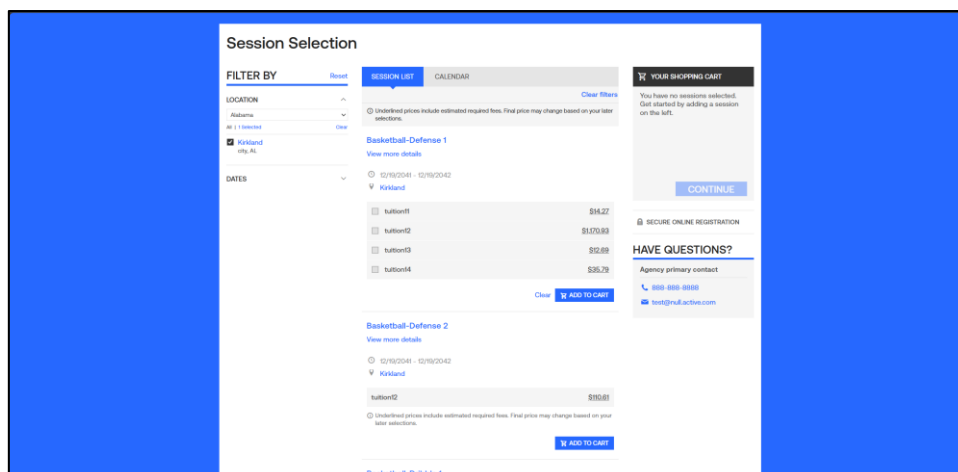

- Price — the original price of the item.
- Required add-ons — the total price of required add-ons (applicable to All-In prices on Tuitions only)
- Estimated service fee — the Service fee calculated from the item's configuration
- Estimated payment processing fee — the payment processing fee calculated on the price
- Estimated total — the All-In price shown for the item

Only pricing elements greater than \$0 are displayed in the Price Breakdown. When no additional fees or required add-ons apply and the All-In price is the same as the original item price, the price will not be underlined and a Price Breakdown will not be displayed.

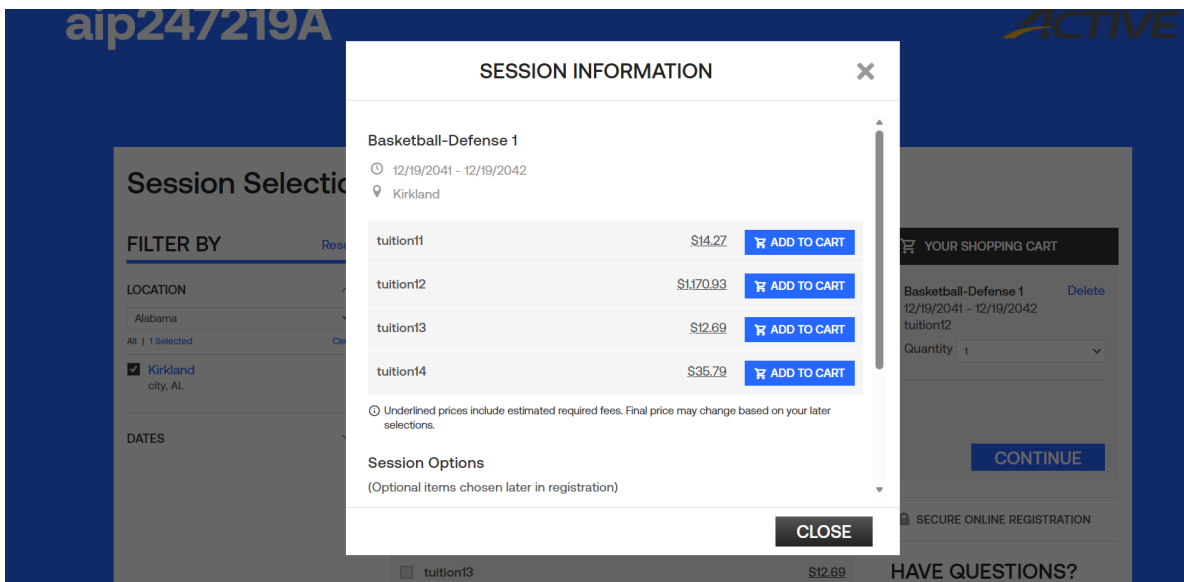

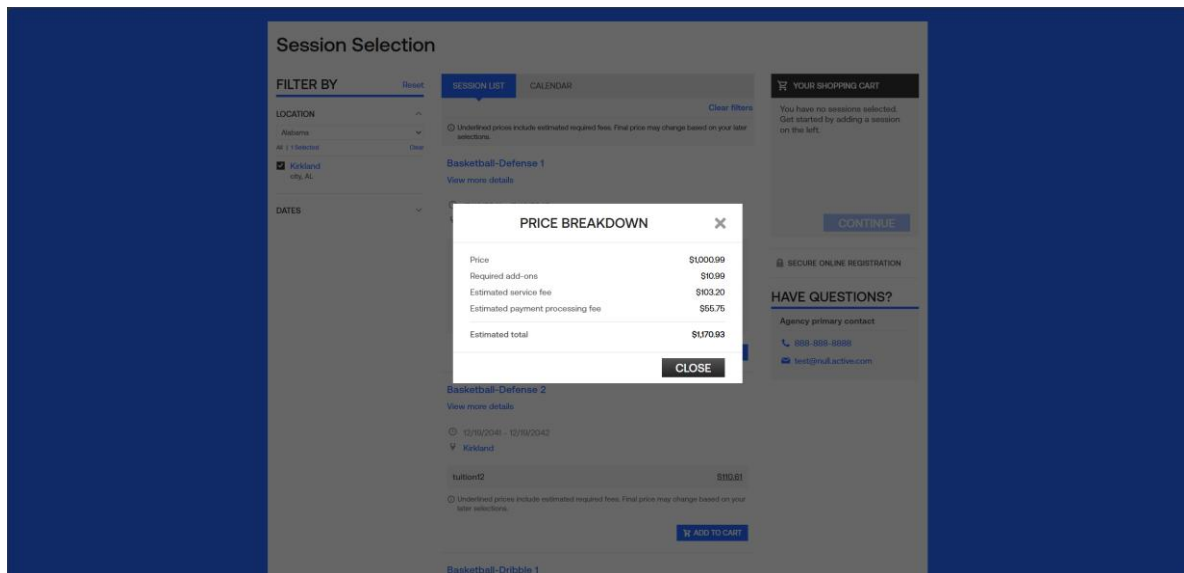

This underlined All-In price and Price Breakdown popup are available on the following CUI pages across both desktop and mobile devices:

Legacy CUI:

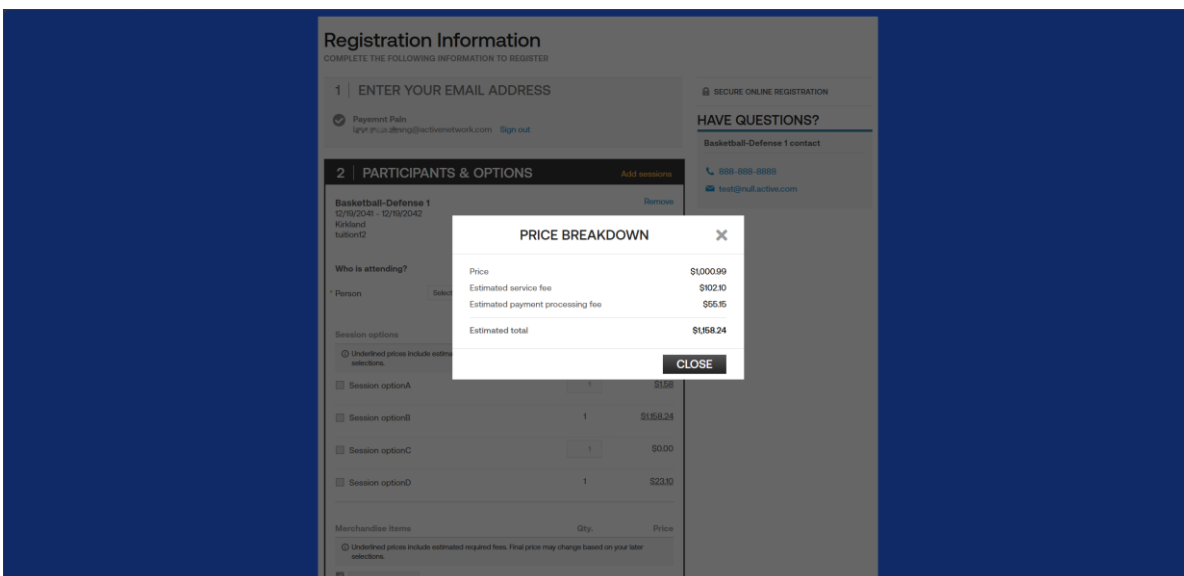

- The Session listing page, including the Session Details pop-up

Camp and Class Manager Release Notes

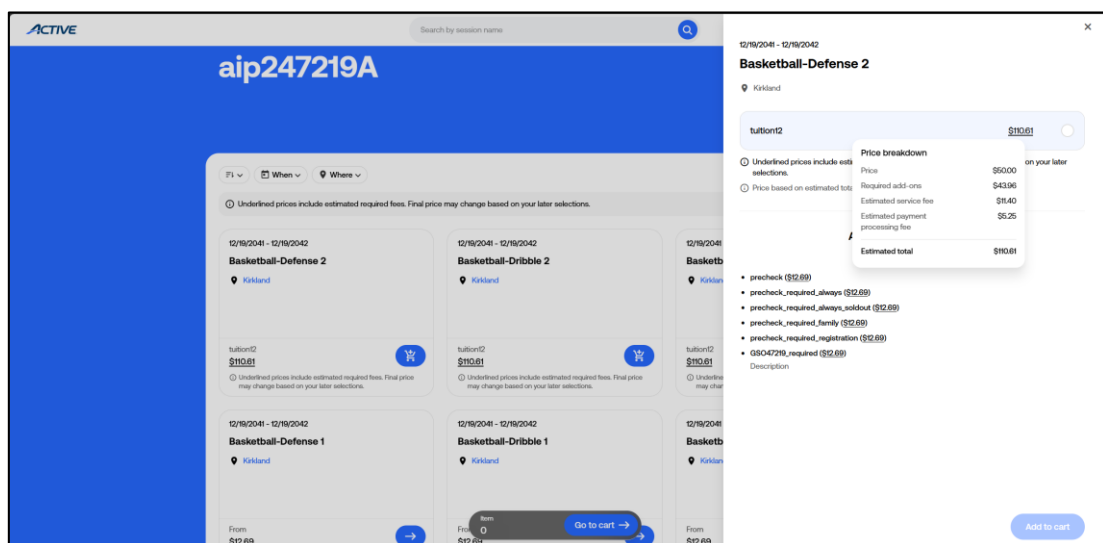

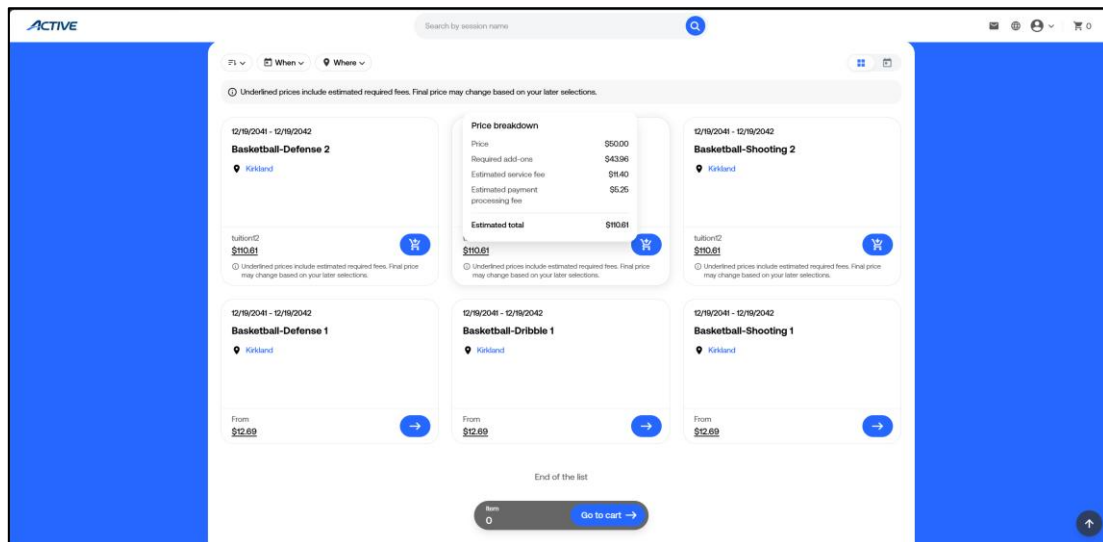

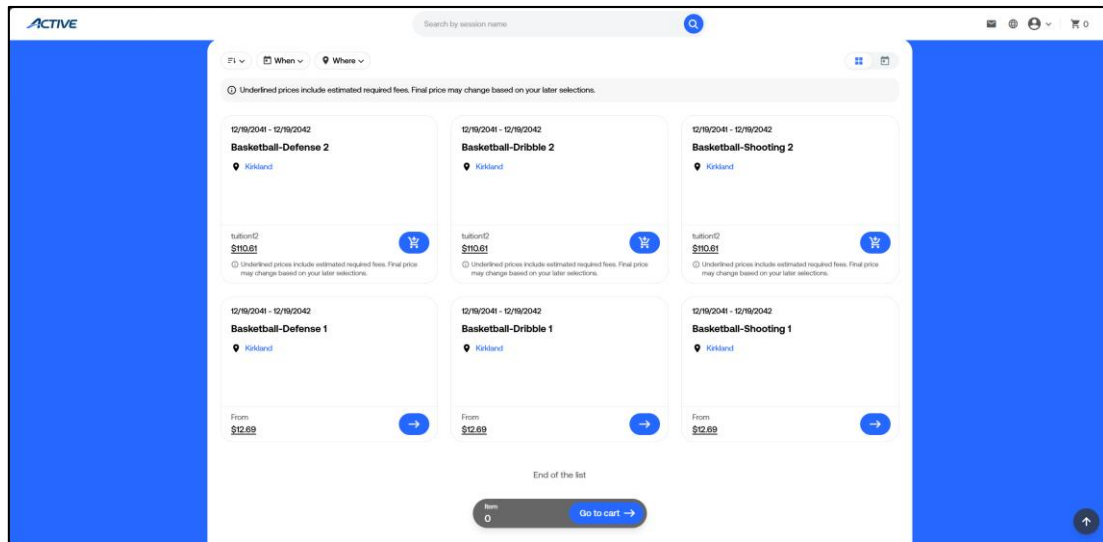

- Registration Form pages

Camp and Class Manager Release Notes

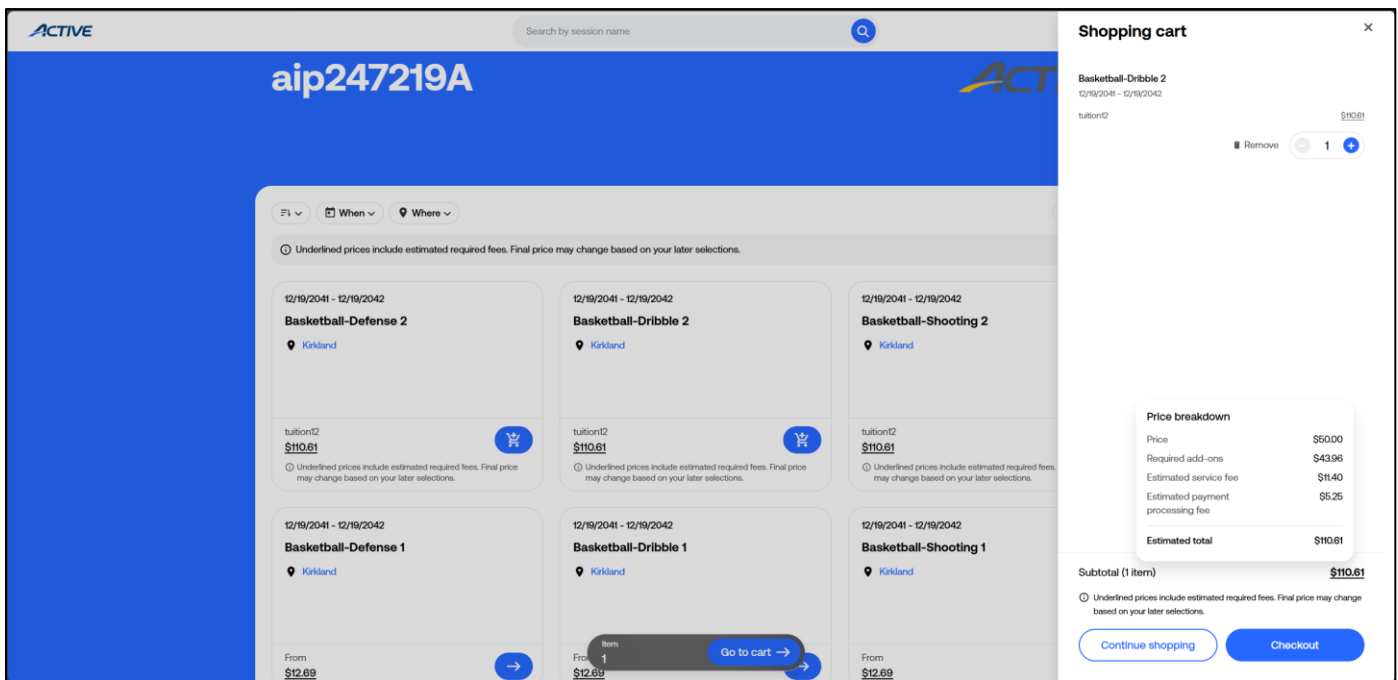

New CUI:

- The Session listing page, including the Session Details pop-up

Camp and Class Manager Release Notes

- Shopping Cart View

All-In Pricing disclaimer and required add-on tooltips

When fee transparency is enabled, a new All-In Pricing disclaimer appears at the top of the page throughout the registration experience. The disclaimer explains that underlined prices include estimated required fees, and the final price may change based on selections made later in the registration process.

Disclaimer Text: "Underlined prices include estimated required fees. Final price may change based on your later selections."

The disclaimer is available in English, Spanish, and Chinese and is displayed on the following desktop and mobile registration pages:

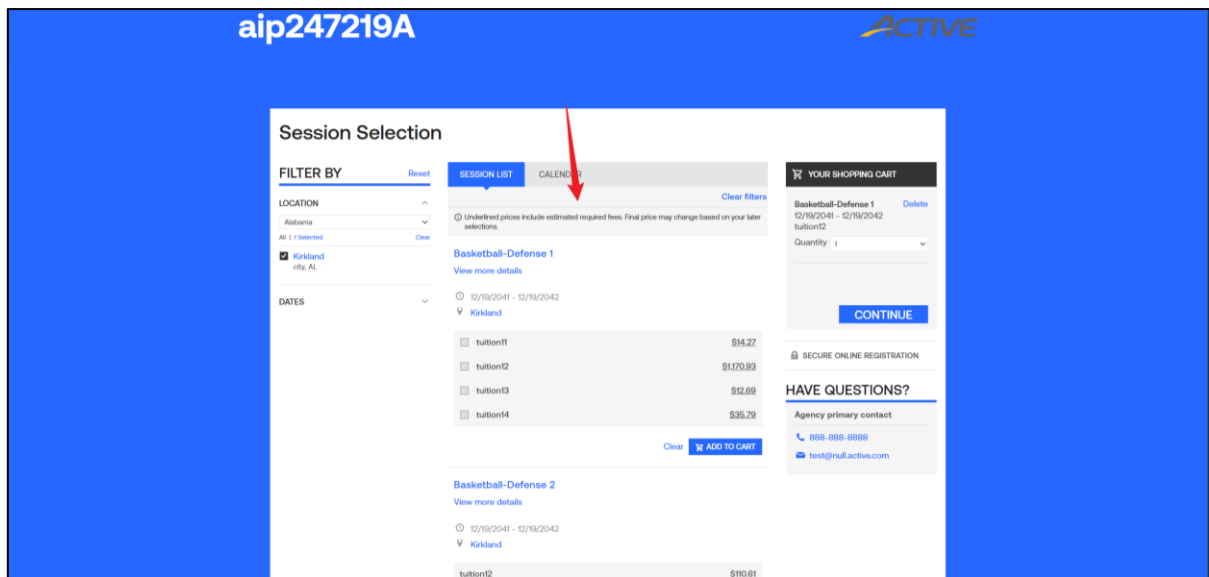

- The Session listing page
- The shopping cart, when session groups are enabled
- The Session details page
- The registration form pages

On the registration form pages where add-ons are selected, required add-ons that are included in the All-In price calculation now display a tooltip. The tooltip explains that the add-on cost has already been included in the Tuition price shown on the Session Selection step, helping consumers understand the required item will not be an additional cost added to their cart total.

Camp and Class Manager Release Notes

Displaying All-In prices in the SSUI

When the Fee Transparency feature is enabled, the prices shown to consumers in the SSUI self-transfer flow now appear as All-In prices, consistent with the registration experience in the CUI. Instead of displaying only the base price and adding mandatory fees later in the process, Camp & Class Manager calculates the estimated total cost up front and displays that amount as the item's price.

The All-In price is made up of the following elements, when applicable:

- Original price — the base price of the item
- Required add-ons — the add-ons the consumer is required to purchase with the item
- Estimated Service fee — the Service fee or Registration fee calculated from the item's configuration
- Estimated payment processing fee — calculated using the payment method with the lowest rate configured in the system

All-In prices apply to Tuition, Session options, and Merchandise across the Session list, Session detail, and Forms steps of the self-transfer flow.

Showing a price breakdown for All-In prices in the SSUI

To help consumers understand how an All-In price is calculated, All-In prices in the SSUI self-transfer flow are now displayed as underlined links. Consumers can click the underlined price to open a Price Breakdown popup that lists the elements included in the total price:

- Price — the original price of the item
- Required add-ons — the total price of required add-ons (applicable to All-In prices on Tuitions only)
- Estimated service fee — the Service fee or Registration fee calculated from the item's configuration
- Estimated payment processing fee — the payment processing fee calculated on the price
- Estimated total — the All-In price shown for the item

Only pricing elements greater than \$0 are displayed in the Price Breakdown. When no additional fees or required add-ons apply and the All-In price is the same as the original item price, the price will not be underlined and a Price Breakdown will not be displayed.

This underlined All-In price and Price Breakdown popup are available on the Session list, Session detail, and Form steps of the self-transfer flow (both desktop and mobile devices).

The screenshot shows the 'Transfer registration' screen in the SSUI. At the top, there's a 'TRANSFER-OUT SESSION' section with 'Amount paid' at \$100.00 and 'Transfer fee' at \$0.00. Below this is the 'Transfer-in session' section, which contains a table of sessions. A 'Price breakdown' popup is visible over the 'Basketball-Drill 2' session.

SESSION NAME	DATE RANGE	SCHEDULE	RESTRICTIONS	LOCATION	Price breakdown
Basketball-Defense 2	12/16/2041 - 12/16/2042	Overnight	---	Kirkland	Price Required add-ons Estimated service fee Estimated payment processing fee Estimated total
Basketball-Drill 2	12/16/2041 - 12/16/2042	Overnight	---	Kirkland	\$50.00 \$20.00 \$10.00 \$4.00 \$84.00
Basketball-Shooting 2	12/16/2041 - 12/16/2042	Overnight	---	Kirkland	\$87.50
Basketball-Drill 1	12/16/2041 - 12/16/2042	Overnight	---	Kirkland	\$10.00 - \$10.00
Basketball-Shooting 1	12/16/2041 - 12/16/2042	Overnight	---	Kirkland	\$10.00 - \$10.00
