Release Summary.....	2
Enhanced Product Features.....	3
Conditional Discounts	3

Release Summary

The purpose of this Release Notes document is to provide a brief, educational summary of the items updated or added in this product release.

Besides providing this document, we will also update existing documentation in the Help Center to show updated workflows. If you have additional questions about this release, please contact the Support team.

Release 6.18 is comprised of product updates on the Discount feature. It is now possible to set up custom conditional discounts that would apply automatically based on the answers provided on the registration form. For instance, if a customer answers “Yes” to the “Are you a goalie?” question, a discount would automatically apply on the cart.

Enhanced Product Features

Conditional Discounts

Organization users can now configure a custom conditional discount with a rule that automatically applies the discount on the CUI checkout page only if customers select the appropriate answers to a custom question during registration.

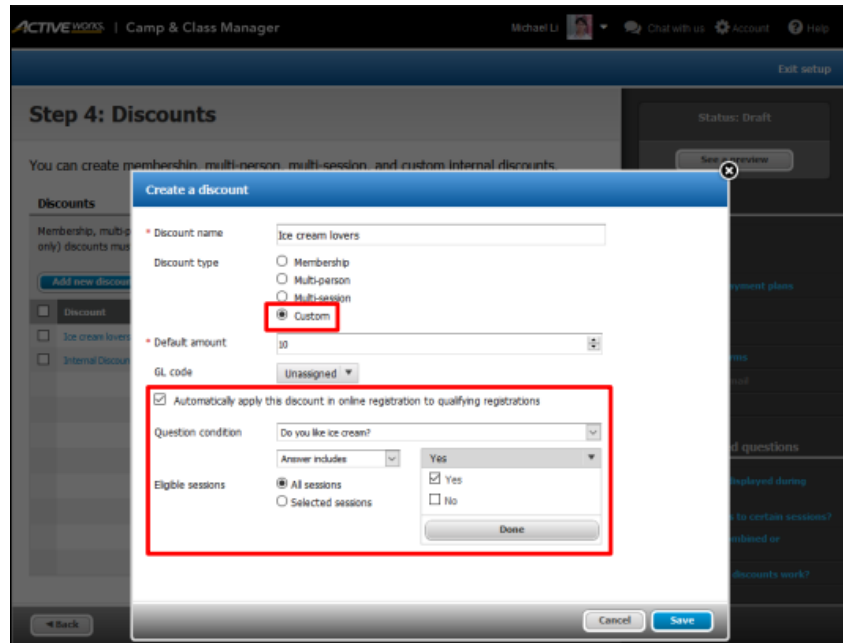

Set Up Conditional Discounts

To Create Custom Conditional Discounts:

1. Go to **Setup**
2. Select **4. Discounts**
3. Click **Add new discount**
4. Select **Custom** discount type
5. Check **Automatically apply this discount in online registration to qualifying registrations** checkbox
6. Select **Question condition**
7. **Save**
8. **Save and Continue**

Note: Although this discount is visible across all seasons, the condition applies only to the season in which it was set. You may set different conditions for this discount in different seasons.

Note: This discount is applied only once per order per person.

Customer Experience

While registering, customers who have selected the appropriate answers to a custom question during registration are automatically given the corresponding conditional display on the checkout page.
