

Product Release Notes for ACTIVEWorks – May 28, 2020

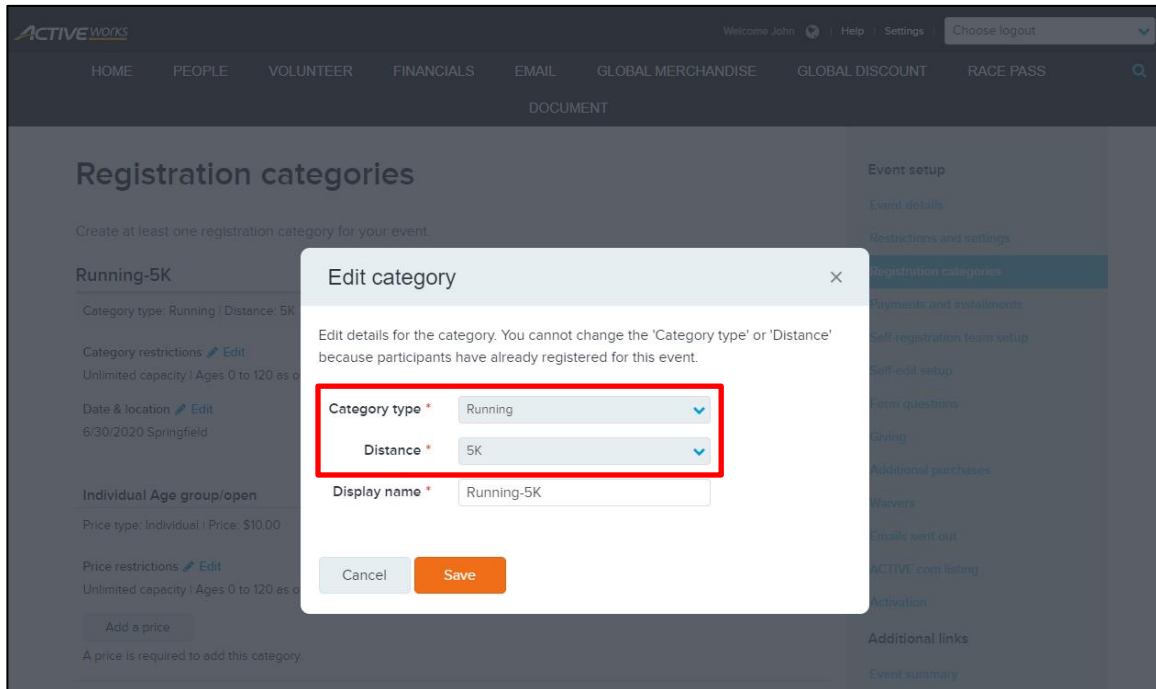

Table of Contents

Virtual events: prohibit changes to Category types and Distances after result submission	2
ACTIVE Results: display virtual event results before the end of the race	2

Virtual events: prohibit changes to Category types and Distances after result submission

Participants' results are ranked within each **Category type** and **Distance** in an event. For a virtual event, where participants self-submit results over an extended period, to prevent errors in the result rankings, you can no longer edit the event's **Category types** and **Distances** after the first result has been submitted by a participant:

ACTIVE Results: display virtual event results before the end of the race

To enable you to provide a live leaderboard during your virtual event, each time you approve and **Publish** a batch of participant-submitted results, they are now displayed within 10 minutes on the **ACTIVE Results** site, instead of only after the end of the race:
