Registering without a contact address

Frustration with answering irrelevant questions can cause customers to abandon their registrations. In recent releases, you've been able to streamline your registration process by eliminating gender and date-of-birth questions.

In this release, if you have configured your **Form questions > Myself > Contact address** questions to be absent, deleted or **Inactive**, then the **YOUR INFORMATION > Contact address** questions are also eliminated from the registration process:

Contact address questions added to Myself tab:

The screenshot shows the 'Form questions' configuration page for the 'Myself' tab. The 'Contact address' section is highlighted with a red box and contains the following fields: Address line 1, Address line 2, City, State (dropdown), ZIP code, and Country (dropdown). The 'Form questions' sidebar on the right lists various question categories, with 'Form questions' currently selected.

Myself tab > Contact address questions Inactive:

The screenshot shows the 'Form questions' configuration page for the 'Myself' tab. The 'Contact address' section is highlighted with a red box and is marked as '(inactive)'. The 'Form questions' sidebar on the right lists various question categories, with 'Form questions' currently selected.

Registration workflow:

The screenshot shows the 'Registration' workflow page. The 'YOUR INFORMATION' section is highlighted with a red box and contains the following fields: Email address, First name, Last name, Day phone, Country (dropdown), Address, Address line 2, City, State (dropdown), and ZIP. The 'Registration' sidebar on the right lists various registration steps, with 'Registration' currently selected.

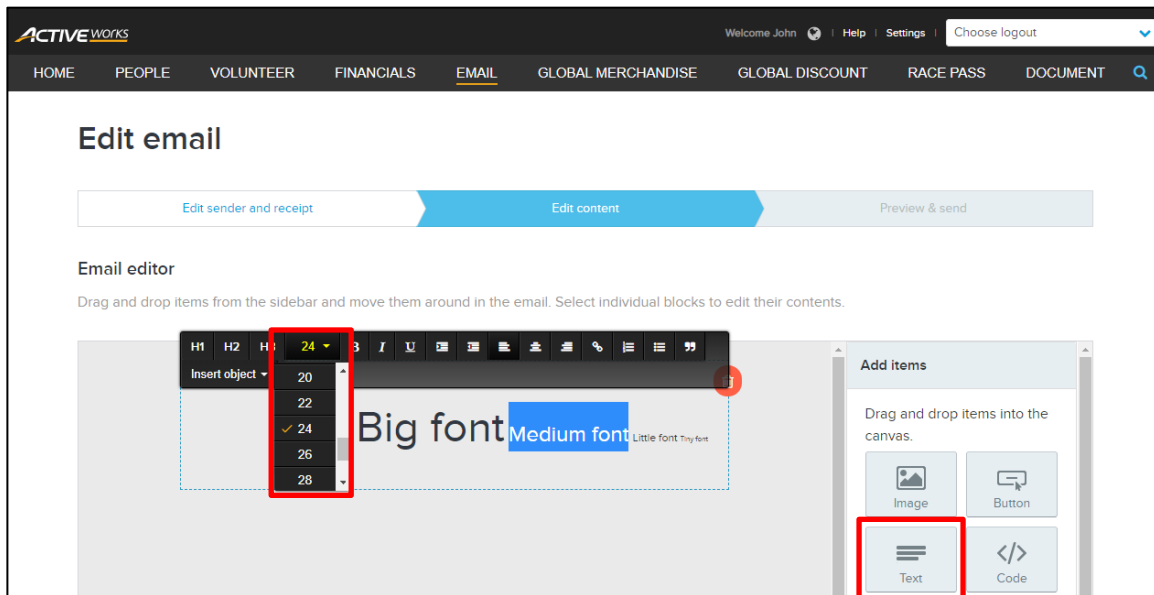

Registration workflow:

The screenshot shows the 'Registration' workflow page. The 'YOUR INFORMATION' section is highlighted with a red box and contains the following fields: Email address, First name, Last name, and Day phone. The 'Contact address' section is absent. The 'Registration' sidebar on the right lists various registration steps, with 'Registration' currently selected.

Email tool font size selector

To help you to better tailor the appearance of your emails, we've replaced the **Email tool's** font size slider with a dropdown menu for more precise, point-based control of text size. When entering or editing email text, simply select your required font size from this dropdown.

Event VIP invitation report

VIP invitations are frequently used by corporate teams to ensure that the right persons have access to specific registration categories. We have added a new event-level **VIP invitation report**, which includes personal and registration information for team members who registered for the event via a VIP invitation email during a specified date period. You can distribute this report to your corporate team captains, so that they are aware of who has registered.

Gross Revenue and Registrations Dashboard components: 7-day trends

In the event **Dashboard** (a Premium-tier feature), you and you staff can now see at-a-glance how your **Gross sales** and **Registrations** are trending compared to 7 days ago. This will give you a better sense of how your marketing activities are impacting your revenue and registrations, and how much they have increased or decreased over the previous week.
