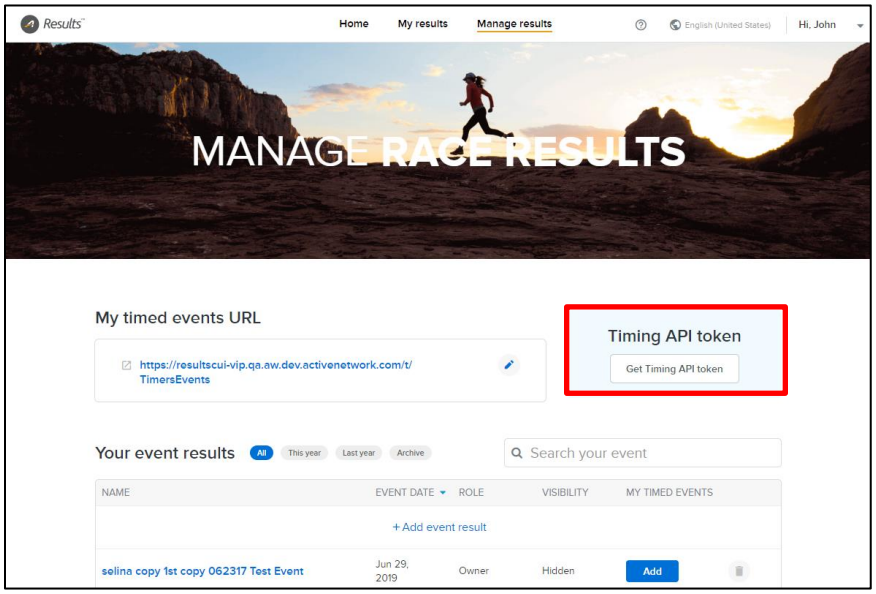
ACTIVE Results: Obtaining an API token for third-party scoring platforms

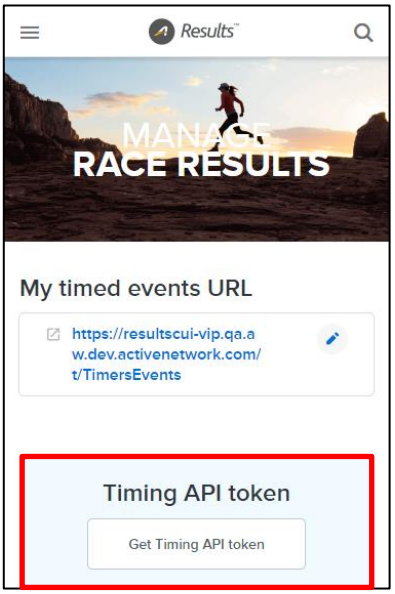
If you are using a third-party scoring platform (such as The Race Director or RunScore), then you can easily obtain an API token to allow your scoring platform to upload results to ACTIVE Results.

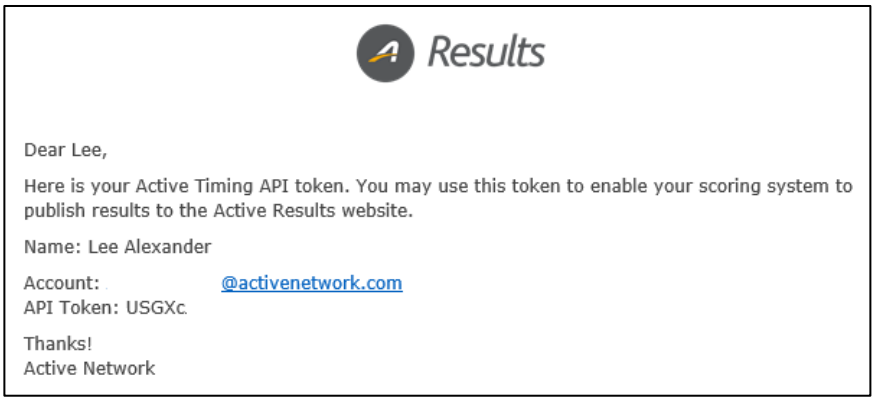
To have an API token emailed to you, click the **Manage results** tab > **Get Timing API token** button:

Desktop:



Mobile:





Dashboard: Activity report by event

The new **Activity report by event** feature now provides you with a quick and easy way to see key event metrics (**REGISTRATIONS**, **CANCELLATIONS**, **NET INCOME**, **DISCOUNTS** and **REFUNDS**) for all or selected events over a selected time period.

You can filter which events to include by their registration status:

- **All**
- **Registration open** or **Registration scheduled to open**
- **Registration off** or **Registration closed**
- **Event completed** or **Current events** (default selection)

And select the time period over which you wish to view key event metrics:

- **Today** (default selection) or **Yesterday**
- **This week**, **This month**, **This year** or **Last year**
- **Payment period** or **Custom date range**

You no longer need to download multiple event registration reports and then filter them by time to see how registrations are trending over any time period.

To secure your organization's financial information, this feature is only visible to staff users with the **Owner** or **Accountant** role.
