## Automatic wave assignment for self-registration team members

When your participants register and join a team, they no longer need to worry about which wave to join, as they can now be automatically assigned to the same wave as their team captain.

To enable this feature, select the **Assign team members to the same Wave (at the time of registration) as their team captain** checkbox. After a participant selects a team, the team captain's wave is automatically selected:

The image shows two screenshots from the ActiveNetwork system. The left screenshot is the 'Team configuration settings' page, and the right screenshot is the 'TEAM INFO' page during registration.

**Team configuration settings**

Set the maximum people per team for selected categories or set team participation rules for selected price types.

☐ Team members must register for same category as team captain

Maximum people per team:

☐ Clown Run

☐ Running-1K

☐ Individual Age group/open

No team participation is required

☒ Assign team members to the same Wave (at the time of registration) as their team captain.

**Team captain settings**

**TEAM INFO**

Do you want to put this person on a team?

☐ No

☒ Yes

**Select a team**

Note: Your first name, last name, age, and gender will be sent to the team captain.

**Included t-shirt**

Select	Price	Quantity
Small	Free	<input type="text" value="1"/>
Medium	Free	<input type="text" value="1"/>

**Wave**

Select	Price	Quantity
Wave 3	Free	<input type="text" value="1"/>

Your wave has already been selected by the team captain.

## Bib number assignment for self-registration team members

The Bib tool spares you and your staff from the work of assigning and managing bib numbers for your participants. In this release, we have extended the Bib tool to automate bib number assignment for team members.

To identify participants who belong to the same self-registration team, you can now configure the Bib tool to automatically assign team members with the same bib number as their team captain.

To distinguish between members of the same team, the Bib tool can append a sequential, capital-letter suffix to each bib number. The team captain's bib number is suffixed with the letter 'A', and bib numbers for team members who register subsequently are suffixed in the following sequence:

- 1<sup>st</sup> to 25<sup>th</sup> team member: B, C, D, E, F...X, Y, Z,
- 26<sup>th</sup> to 50<sup>th</sup> team member: BB, BC, BD, BE, BF...BX, BY, BZ,
- 51<sup>st</sup> to 75<sup>th</sup> team member: CB, CC, CD, CE, CF...CX, CY, CZ,
- ...
- 601<sup>st</sup> to 625<sup>th</sup> team member: ZB, ZC, ZD, ZE, ZF...ZX, ZY, ZZ.

Bib sequence  Start bib sequence at

Exclude a number or range of numbers from this sequence

Separate multiple numbers with commas and number ranges with hyphens. Example: 237,238,800-850. These numbers will be skipped when bib numbers are assigned automatically.

☒ Assign the same bib to members of a self-registration team.

☒ Suffix bibs for self-registration team members with a capital letter.

☐ Re-assign bibs if participants change their answers before this date

Last date to re-assign

## Assign bib numbers by answers to three questions

We've enhanced the Bib tool to assign bib numbers by answers to three questions, giving you more options by which to categorize your participants. For example, you can now assign bibs by a participant's age, expected finish time and supported charity.

## Customer Relationship Management by participant's race results

Do you want to communicate with your elite athletes? Or offer a training program to help your slower runners to improve?

The Customer Relationship Management tool (a Premium-tier feature) now helps you to identify your participants by their **Race results**.

In the **People** tab, select the required sport type and distance, and then select and configure one of the following result conditions:

- **number of fastest participants.**
- Race time **earlier than** or **later than** your specified time, or **between** two specified times.
- Participants who have a **number of results greater than, less than or equal to** your specified number of results.

You can save your race result filter as a custom segment for future use.

The screenshot shows the ACTIVEWORKS endurance interface. The 'People' tab is active, and a custom segment is being created. The filter is set to 'Race results' for 'Running | 42K' with the condition 'between' and the time range '02:00:00' and '02:30:00'. A dropdown menu is open, showing various race types and distances. A second dropdown menu is also open, showing the available result conditions.

People who match **all** of the following conditions
