Even Stronger CrowdRise Integration

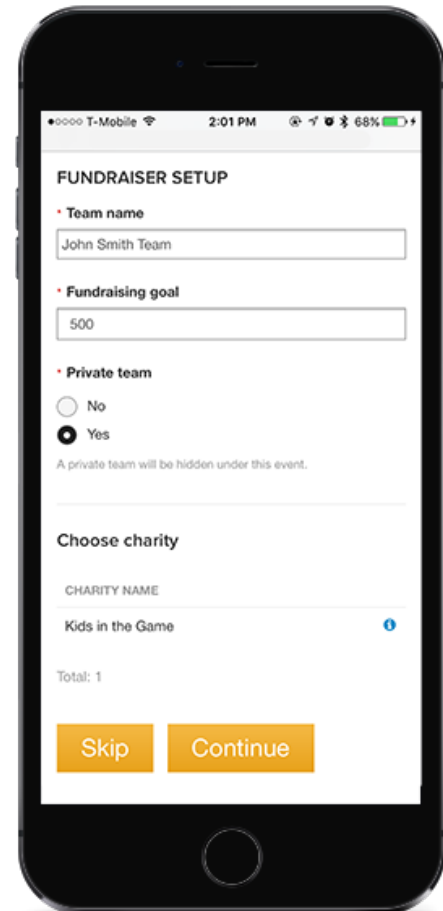

Race Directors love the new integration with CrowdRise and it just got even better.

Participants expect there to be a fundraising option at your event. It's now easier than ever to put fundraising right in the registration flow, allowing participants to fundraise with less work for you!

The Highlights

What's new:

- Fundraising team information is now included in the registration confirmation email which reminds participants of their fundraising selections.
- Fundraising team information can be viewed within the MyEvents platform. This makes it easy for your participants to get fundraising details from MyEvents.
- Limit fundraising to specific causes and fundraising events to specific registrants. This give you more control of your fundraising.

Abandoned Cart Discounts

Abandon cart notifications are great for people who lose their attention half way through registration. Well, we just made them better - again!

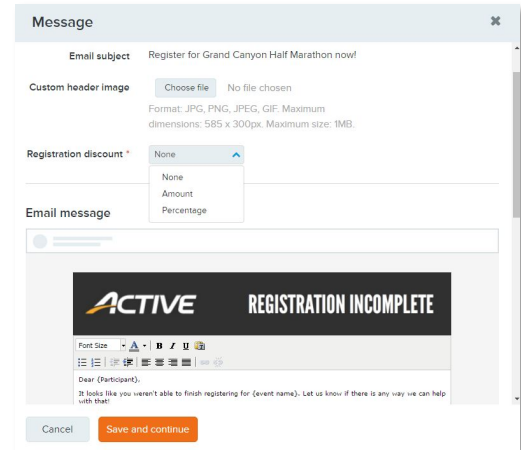

You can now customize the abandon cart automatic emails with a discount code. What better way to get someone to complete registration than a little price incentive? When you customize your abandoned cart email, you can now easily give a discount based on a dollar amount or percentage!

USAT Integration

If your triathlon event is sanctioned by USAT, this product upgrade is for you!

ACTIVEWorks Endurance is now directly integrated with USAT. That means member validation just got automatic. USAT member validation and license purchases are now a part of the registration process, meaning your time can be spent on your event instead of member verification!

USAT triathlon events are now able to integrate with CrowdRise fundraising. This gives you a much stronger option when it comes to fundraising!

The screenshot shows a 'Message' configuration window for an email. The 'Email subject' is 'Register for Grand Canyon Half Marathon now!'. The 'Custom header image' section has a 'Choose file' button and a note: 'No file chosen. Format: JPG, PNG, JPEG, GIF. Maximum dimensions: 585 x 300px. Maximum size: 1MB.' The 'Registration discount' dropdown menu is open, showing options: 'None', 'Amount', and 'Percentage'. The 'Email message' section contains a preview of the email content, which includes the ACTIVE logo, the text 'REGISTRATION INCOMPLETE', a font size selector, and a rich text editor with the text: 'Dear {Participant}, It looks like you weren't able to finish registering for {event name}. Let us know if there is any way we can help with that!'. At the bottom are 'Cancel' and 'Save and continue' buttons.

Mobile Express Checkout Admin Registration

Mobile Express Checkout allows participants to start registration on their mobile device and finish later. It's great for those looking to register quickly from anywhere without having to go through the whole process.

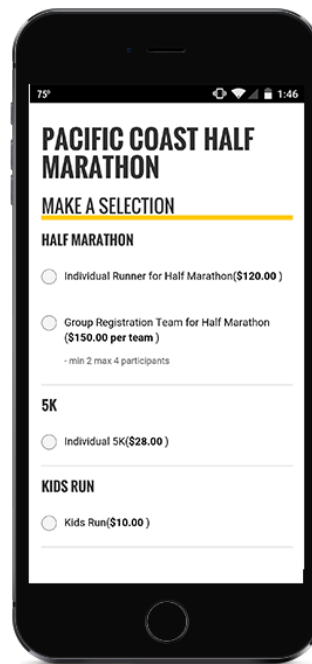

In some cases, you'd like to finish out these registrations for the participants. Now you can! This gives you more control over Mobile Express Checkout, helps reduce the number of incomplete registrations and allows you to provide better customer service.

Self-Service Transfers

Registrations that were completed on behalf of someone else can now be transferred as easily as individual registrations. For example, this allows a parent to easily transfer the registration of one of their children without needing to contact the organizer.

Volunteer Captain Report

Volunteer Captains are a huge help to your event so we made their job a whole lot easier. Volunteer Captains can now download a report containing the details of volunteers and what they signed up for.
