Increased Flexibility for Waiver Management

In this release, ActiveWorks Endurance offers finer-grained waiver setup and easier waiver management.

Waivers for Specific Categories

Organizers can now apply a waiver only to specific race categories, or display it only in specific registration channels (on the registration form, On-Site app, or both).

The new options allow organizers to have greater choice in how to set up waivers.

The screenshot shows the 'Edit waiver' interface with the following fields and options:

- Name ***: Text input field containing 'Waiver One'.
- Text ***: Rich text editor with a toolbar (Font Size, Bold, Italic, Underline, Link) and a text area containing three lines of 'waiver one content'.
- Availability**: Dropdown menu set to 'Everyone'.
- Display in**: Dropdown menu set to 'Registration form and On-Site'.
- Apply to ***: List of race categories with checkboxes:
 - Springfield Fun Run 2017
 - Running-5K
 - Individual Age group/open
 - Running-10K
 - Individual Age group/open
- Report label ***: Text input field containing 'one'.

At the bottom, there are 'Cancel' and 'Save' buttons.

Easier Waiver Management and Waiver Reports

Waivers signed by participants in the ACTIVE On-Site app are now stored, displayed, and downloadable in ActiveWorks Endurance.

- **Viewing participant waivers signed in ACTIVE On-Site**

Organizers can download a PDF file containing all waivers signed in the ACTIVE On-site app by a specific participant. The PDF file also includes the participant's photos and finger-drawn signatures.

- **Batch downloading waivers**

The new waivers report collates all waivers for confirmed registrations for an event.

Instead of checking participants' waivers one-by-one, organizers can now use this report to review all the waivers together.
