Hiding a Team in My Events

Hidden teams allow you to create and manage private teams for your corporate and charity partners.

In this release, we provide team captains with additional control over team availability in My Events. This is another enhancement to the hidden team feature, which will see further enhancements in 2017.

The screenshot shows a web interface for a 'SIMPSONS THEME RUN' event. On the left is a sidebar with 'Places' containing 'My events' and 'Dashboard'. The main content area is titled 'XYZ CORP TEAM (SMITH)' and contains a 'TEAM INFORMATION' section. This section includes a 'Required fields' list with a 'Team name' input field. Below that is a 'Team description' text area. Two questions with radio button options are present: 'Is this a private team?' (options: No - anyone can join, Yes - require a password) and 'Is this team hidden?' (options: No - anyone can see the team when registering, Yes - hide team from all registrants). At the bottom of the form are 'Cancel' and 'Save' buttons. A yellow banner at the bottom right of the interface reads 'WHAT'S YOUR ACTIVE?'.

Localization for Volunteer Registration

Confidently launch volunteer registration in non-English speaking countries.

Our volunteer registration page now supports localized languages. Volunteers around the world can now complete the volunteer job registration form in their chosen language.

The screenshot shows the 'VOLUNTEER REGISTRATION' page for 'Volunteering for Simpsons Run'. The page has a progress bar with three steps: 'SELECT JOBS' (highlighted in orange), 'SIGN IN', and 'COMPLETE FORM'. Below the progress bar, the title 'Volunteering for Simpsons Run' is displayed, followed by the instruction 'Please select one or more jobs you want to volunteer for.' There are three tabs: 'OPEN JOBS' (highlighted), 'FILLED JOBS', and 'ALL JOBS'. A search bar labeled 'Search by job name' and a 'Sort by: Date' dropdown are visible. A language dropdown menu is open on the right, showing a list of languages including English (United States), Dansk (Danmark), Deutsch (Deutschland), Deutsch (Österreich), Deutsch (Schweiz), English (Australia), English (Canada), English (Great Britain), English (Ireland), English (New Zealand), English (Singapore), English (South Africa), Español (España), and Español (México). Two job listings are shown for August 31, 2016: 'Beverage service' (19 jobs available) and 'Food service' (20 jobs available).

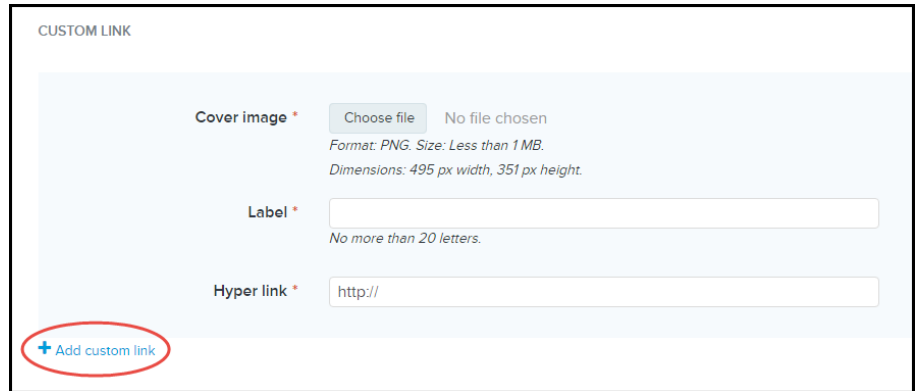

Customize Your Event App

Introducing a new Live Leaderboard and increased Custom Link flexibility.

More Custom Links

Increase exposure for your event or third-party partners through the creation of Custom Link tiles. In your Event App

In the Event App, organizers can now insert up to 5 Custom Links to any page of their choice. This option is ideal for connecting spectators and participants to sponsors, charities and other partners.

The photo or icon for each of the Custom Link are also customizable. When visitors click the Custom Link from within the Event App, they are instantly brought to the page of your choice.

More options mean greater potential for revenue growth!

Check out the Live Leaderboard!

The ACTIVE Event App now provides a live leaderboard when paired with ACTIVE Timing.

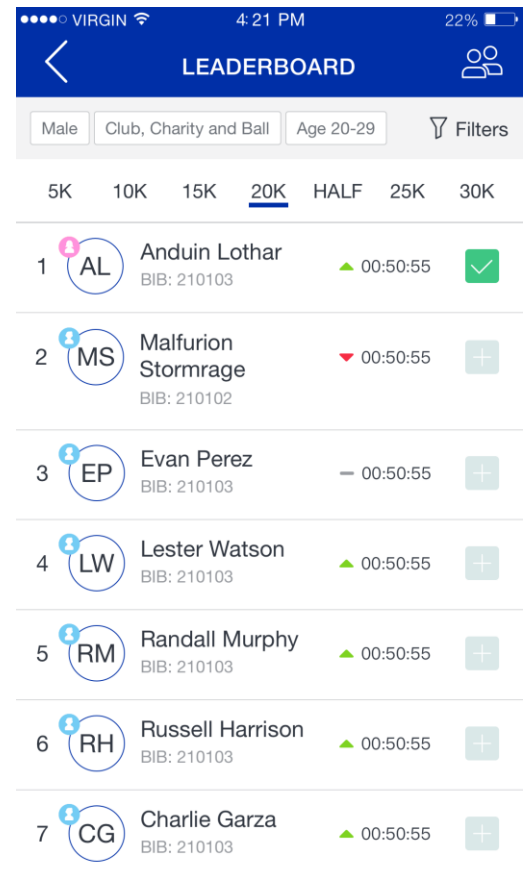

Organizers can now enable the new Leaderboard component in the Event App, to allow spectators and participants to use their smartphones to monitor the top participants at each timing point.

The Leaderboard compares the rankings between timing points and shows if a participant's ranking improves, declines or is unchanged from the previous timing point.

Viewers can mark their favorite participants in the Leaderboard and then track their course progress in the People module.

This real-time Leaderboard helps increase event spectator engagement and Event App downloads.

Note that the Leaderboard is only available for Event App customers who are timing their event with ACTIVE Timing, and is not available for GPS tracking.
