## Enhanced Charity Integration User Experience

Charity logos are now more prominent and easier to read, improving overall clarity and interaction. We've also introduced a toggle feature to collapse fundraising details, minimizing the need for excessive scrolling on both desktop and mobile devices. These updates are designed to streamline and enrich your user experience.

## Streamlined Transition from Individual to Team Captain Pricing

We've simplified the process for individuals who wish to switch to a team captain price type. Now, you can seamlessly create your team and select your team type category (if applicable) all within a single, streamlined flow, enhancing your overall user experience.

### Create a team

Create a team where team members register on their own. Team captain can use the team captain center to manage and invite team members.

**Team type \***

**Team name \***

**Is this team hidden? \***  No - anyone can see the team when registering  
 Yes - Hide team from all registrants

**Is this a private team? \***  No - anyone can join  
 Yes - require a password

Event directors will also have the option to adjust the team creation fee (if applicable) before finalizing the transition to the team captain category.

## Cancel a Pay Later Team Captain

Event directors now have the ability to cancel a pay-later team captain. The event director can appoint a new team captain, who will then have the option to either cover the team's outstanding balance or allow each team member to pay individually. If there is no outstanding balance, the team can be cancelled without appointing a new captain.

If event director chooses for individuals to be on the team to pay individually, all member status will be changed to Pending until payment is received.
