New Payment Methods: Apple Pay and Google Pay.....2

New Payment Methods: Apple Pay and Google Pay

In the CUI, the event registration workflow and event series registration workflow now support Google Pay and Apple Pay on the **Check out** page.

- On a Safari browser in the MacOS or iOS, users can now pay with Apple Pay:

MacOS

The MacOS checkout page features a top navigation bar with 'SELECT CATEGORY', 'COMPLETE FORM', and 'CHECKOUT' (highlighted). Below this is a 'Check out' section with a blue notification: 'Your cart may be split into multiple orders by seller. When you review your bank statement, you will see separate transactions from each seller.' An 'Order review' table lists items: 'event - Running-1 Mile - Price = 1' for \$0.25 and 'Included t-shirt - Extra large' for \$0.00, with a total of \$0.25. A 'YOUR ORDER' summary box shows 'Subtotal \$0.25' and 'Total \$0.25' with a prominent 'Apple Pay' button. A coupon section offers a \$0.00 discount. The 'Payment' section shows 'Pay in full now' for \$0.25 and 'Payment methods' including 'Credit card' and 'Apple Pay'.

iOS

The iOS checkout page displays 'Payment options' with 'Pay in full now' for \$90.00. Under 'Payment methods', 'Credit card' and 'eCheck or EUDD' are visible, with 'Apple Pay' highlighted in blue. The 'Billing address' section includes input fields for 'First name', 'Last name', 'Country' (a dropdown menu), and 'Address', each with a red asterisk indicating a required field. An upward arrow icon is located at the bottom right of the address field.

- On a browser in the Windows OS or Android OS, users can now pay with Google Pay:
