

## Product Release Notes for ACTIVEWorks – April 23, 2025

### Table of Contents

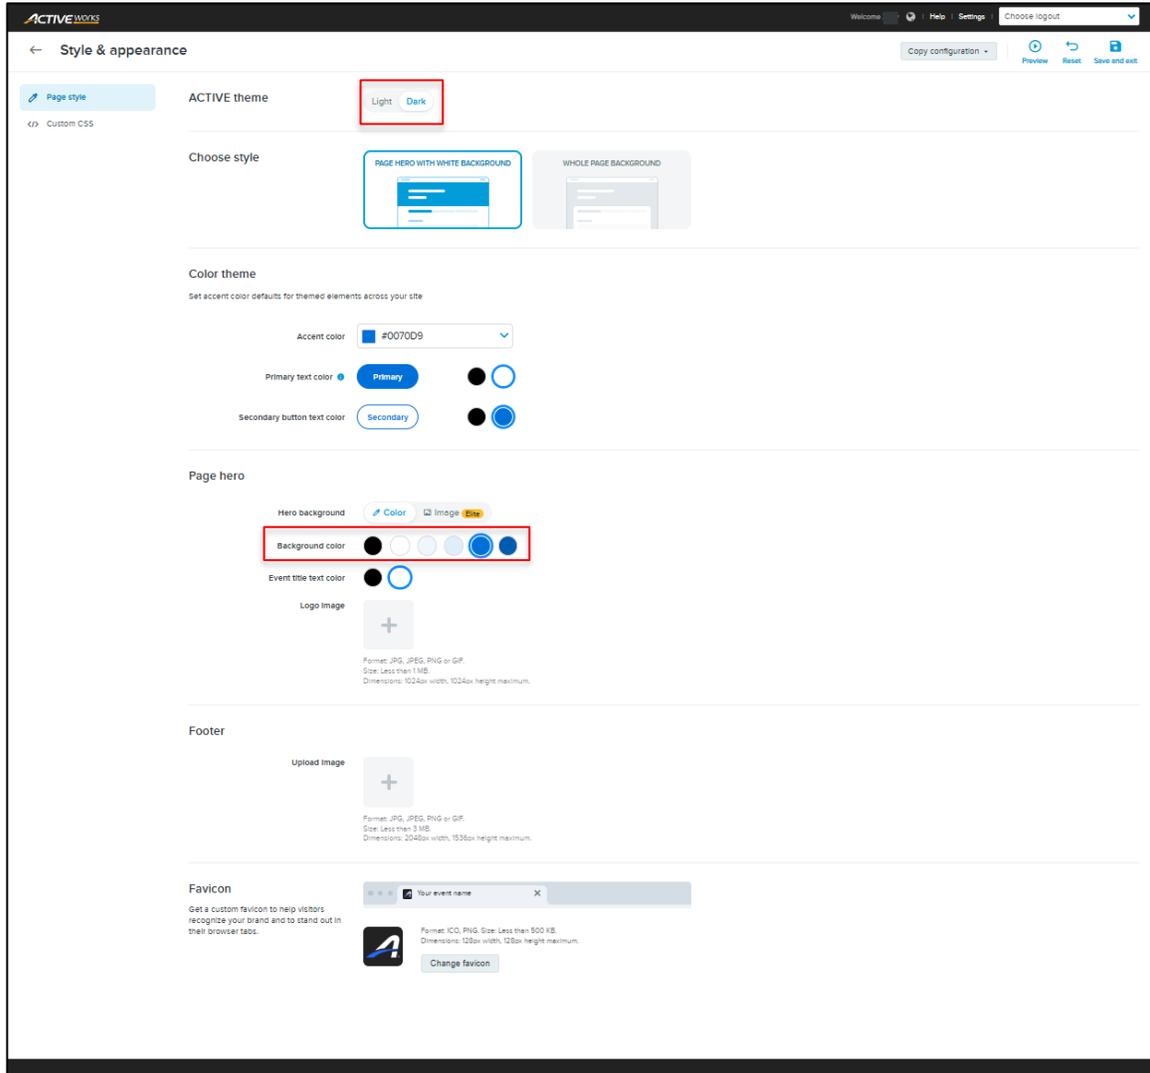

Updating the default template for CUI events registration forms .....2

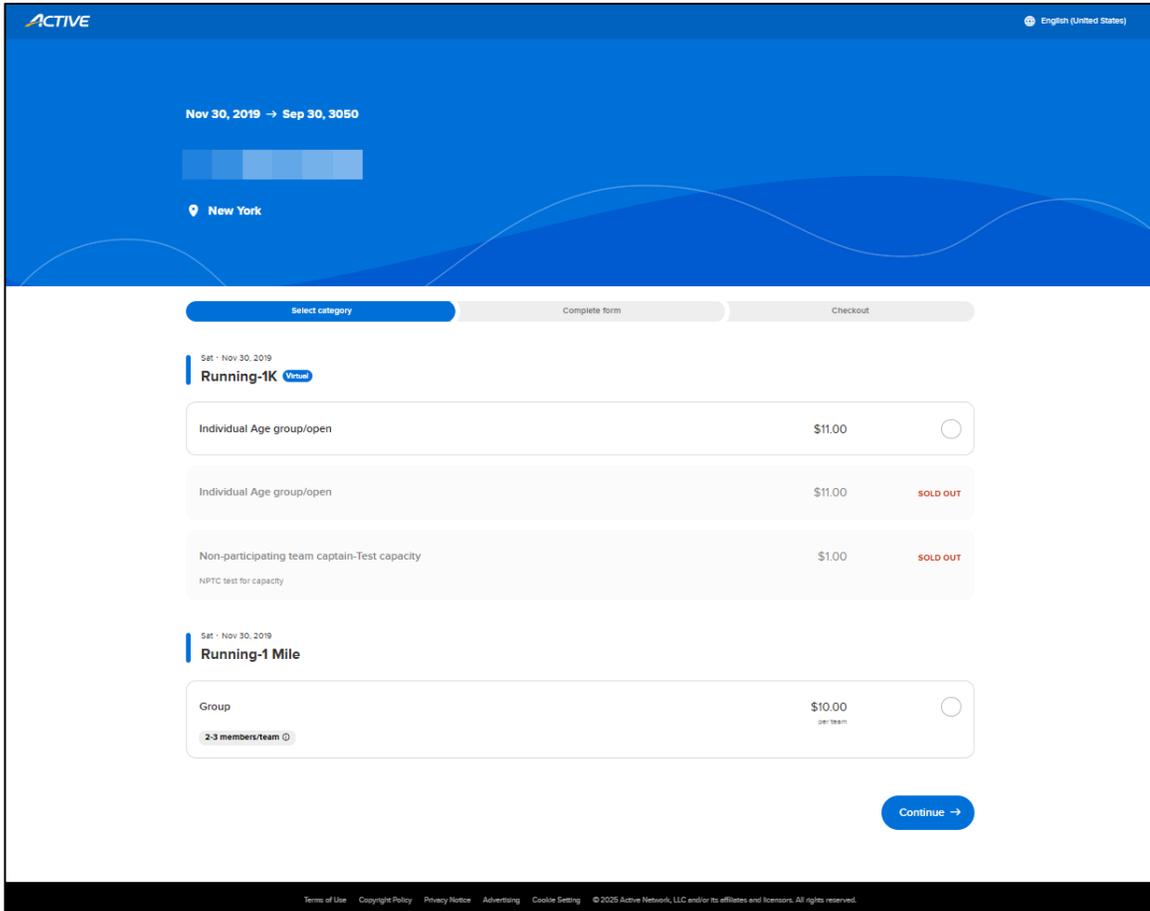

## Changes to the default template for CUI events registration forms

For better visual experiences, the default template of the CUI registration forms has included the following changes in the locations below:

- The default **ACTIVE theme** has been changed from **Light** to **Dark**.

- In the **Page hero** section, the default **Background color** has been changed from light blue to dark blue, and the **Event title text color** has been changed from black to white. When the **Accent color** is changed, the **Background color** is changed to the same color as the **Accent color**.

- The ACTIVE header on the **Select category** page is now transparent, allowing the page hero section to be visible behind it. When a custom CSS header is configured, the ACTIVE header reverts to the original black background.
- The full image of the merchandise is now larger on PC.

3 Merchandise

## FAST TRACK SHIPPING

SKIP THE PACKET PICKUP LINES, HAVE YOUR RACE PACKET DELIVERED TO YOU.
