Selecting a USAT-enabled price category during express registration link setup

Express registration now supports the USAT price category.

When creating an express registration link, event managers can now select a USAT-enabled price category. For example, if the Triathlon-Sprint is configured as a USAT price category, it can be selected during express registration link setup:

The screenshot shows a modal window titled "Create express registration link" with a close button (X) in the top right corner. The form contains the following elements:

- Expiration date:** Two radio button options: "None" (selected) and "Specify date range".
- Discount amount:** A text input field containing "5.00" and a dropdown menu labeled "USD Amount" with a downward arrow.
- Select category *:** A section with a red asterisk and the instruction "Only show selected categories for the reg link".
- Category list:** A scrollable list of categories with checkboxes:
 - Stride for Glory
 - Running-Marathon
 - Individual Age group/open
 - Individual Age group/open
 - Running-Half marathon
 - Individual Age group/open
 - Individual Age group/open
 - Triathlon-Sprint
 - Individual Age group/open

At the bottom right of the modal are two buttons: "Cancel" (light blue) and "Save" (orange).

On the express registration form page, participants are required to input their existing USAT membership ID or purchase a new membership to complete the registration flow:
