Product Release Notes for ACTIVEWorks – Apr 7, 2026

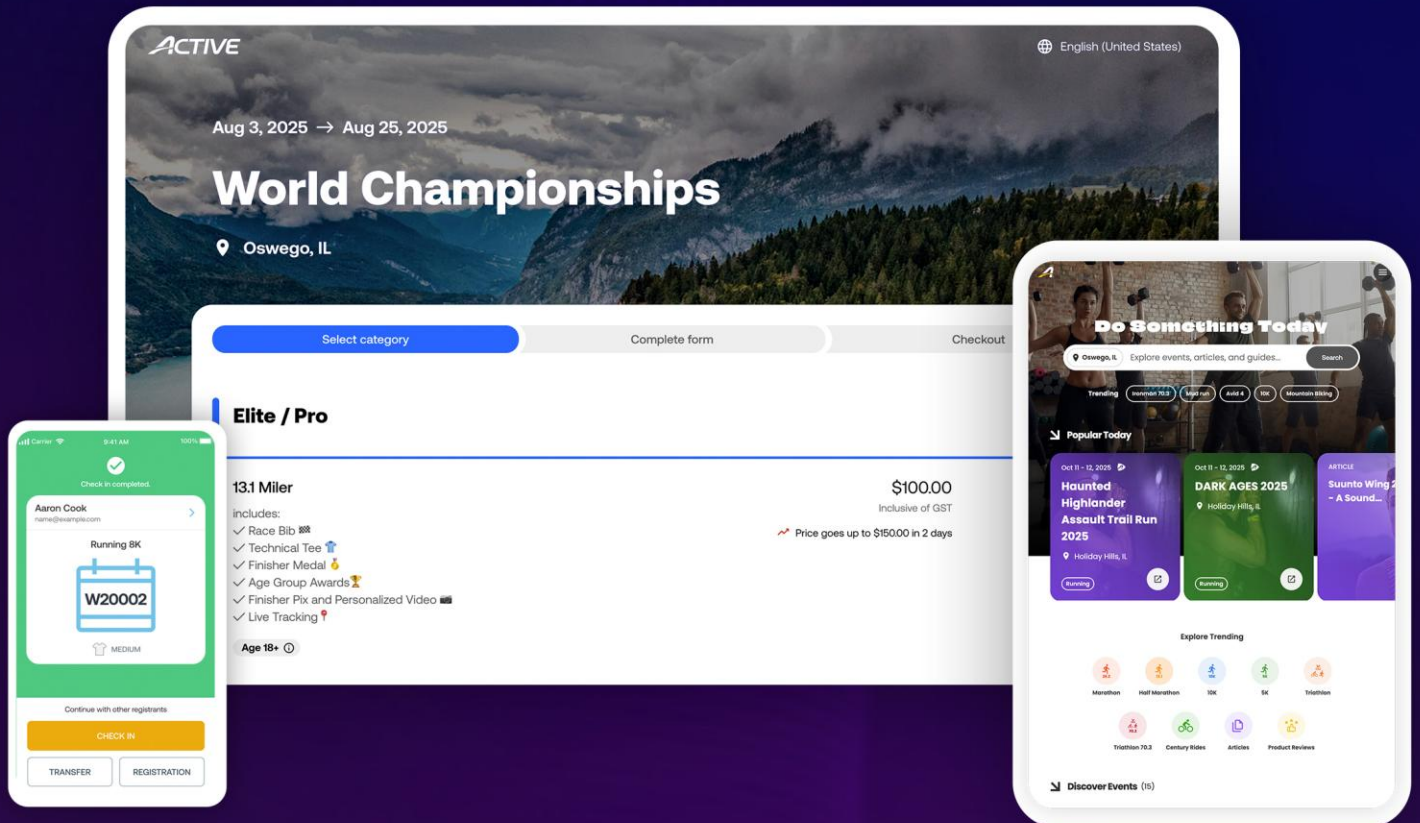

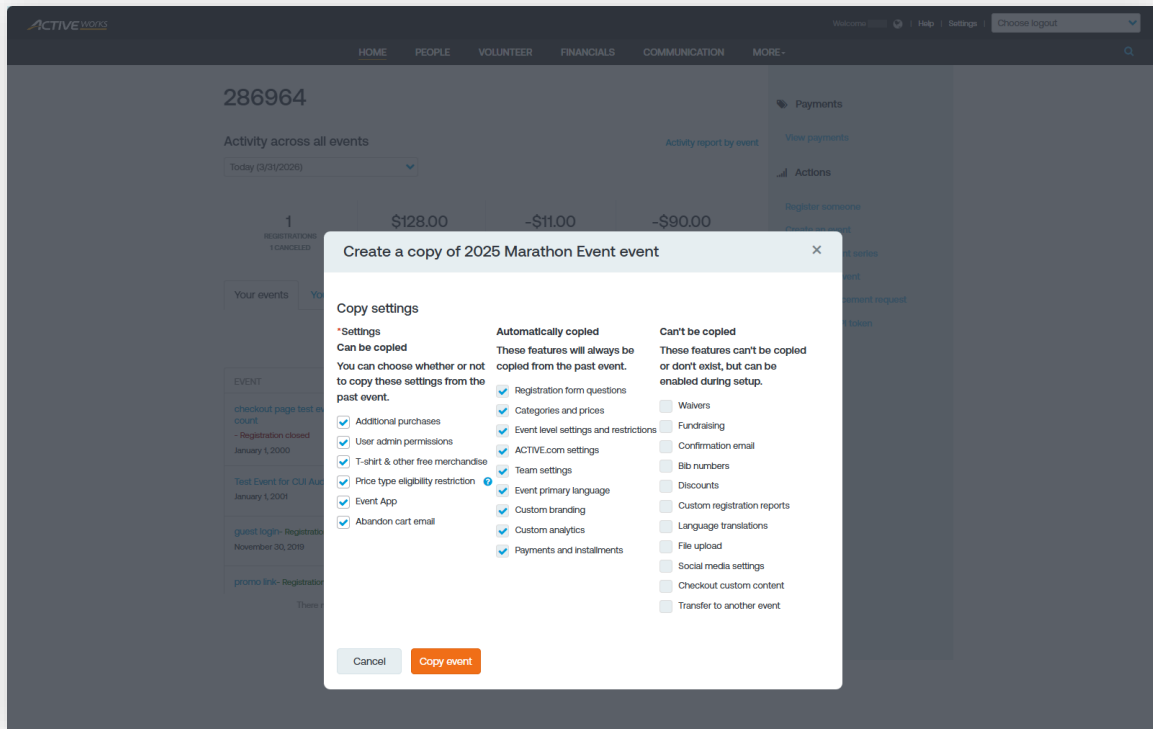

Table of Contents

Abandon cart email copied with event duplication	2
Address auto-complete in the AWE CUI	2

Abandon cart email copied with event duplication

When a staff user copies an existing event, the system now also copies the Abandon cart email content and settings from the original event if the AUI > **Copy settings** > **Settings Can be copied** > **Abandon cart email** checkbox is selected.

Address auto-complete in the AWE CUI

Entering addresses in the AWE CUI is now faster and more convenient with address auto-complete. Users can begin typing a few letters and instantly see the suggested match. Selecting a suggestion automatically completes the full address.
