Hiding capacity of sessions, groups or timeslots.....2

Hiding capacity of sessions, groups or timeslots

Users can now hide the capacity of sessions, groups or timeslots of a program by selecting the **HOME > Your programs > a program > Registration setup > Sessions, Groups or Timeslots > Edit button > Capacity section > Hide capacity from public** checkbox:

The screenshot shows the ACTIVE SwimManager interface. At the top, there's a navigation bar with 'HOME', 'ATTENDANCE', 'PEOPLE', 'VOLUNTEERS', 'COMMUNICATIONS', 'REPORTS', and 'TOOLS'. Below this is a 'Registration setup' sidebar with options like 'Program summary', 'Program details', 'Groups' (highlighted), 'Prices and billing', 'Discounts and fees', 'Form questions', 'Additional purchases', 'Waivers', 'Confirmation email', 'Registration dates', and 'ACTIVE.com listing'. The main content area is titled 'Edit groups' and includes a 'Your groups' section with an 'Add group' button. A form for editing a group named 'GroupA1' is visible, with fields for Name, Description, Capacity, Age range, Gender, and a section for 'Add volunteer requirement'. The 'Hide capacity from public' checkbox is highlighted with a red box.

If the program has more than one session, group or timeslot, users can click **Yes** in the pop-up to hide the capacity of all sessions, groups or timeslots for the program from the public or click **No** to hide only the capacity of the selected session, group or timeslot:

Confirm

Do you want to hide capacity from the public for the whole program?
